LET 'THE BICYCLE' BE YOUR
STAND-BY-STAND GUIDE

Aberdale Cycle Co., Ltd.

FOR the first time since the end of the war, the Aberdale Cycle Co., Ltd.—now widely known for their range of Gresham Flyer tricycles and junior cycles—have decided to re-introduce a full range of tourist and light-weight machines.

There will be models to suit all types of rider on the company's stand.

Prices are expected to be competitive and will be announced in time for the opening of the Show.

One model to catch the eye is the new gents' Clubman G. It embodies lightweight features in the specification in a pleasing design for the rider who wishes to purchase a medium-priced machine.

The finish is black with silver lining.

The Ladies' Sports Tourist is a smart-looking bicycle, and suitable for the everyday cyclist. It is fitted with a Sturmey-Archer gear, gearcase and caliper brakes.

Edmonton, London, N.18.
