

# 4 REASONS WHY THE GRESHAM FLYER *DeLuxe* IS THE WORLD'S BEST TRICYCLE!

**1.** The Gresham Flyer de Luxe is a precision-engineered child's three-wheeler, built on cycle lines, of very robust construction and smart finish. A three-wheeler that every child will delight in.

**2.** Only the Gresham Flyer de Luxe is fitted with a patented car-type boot for carrying shopping, toys, etc. Designed to harmonise with the rest of the tricycle, the boot adds very little to the total weight.

**3** Another unique feature is the patented telescopic handle which enables the parent to control the child as desired. This telescopic handle folds away when not in use. (See inset.)

**4.** When taken out with a three-wheeler, small children are apt to become over-tired. With the telescopic handle in the Gresham Flyer de Luxe, mother can push junior back home in comfort.

## GRESHAM FLYER

A product of one of the world's largest manufacturers of junior tricycles: **The Aberdale Cycle Co., Ltd.**,  
Bridport Road, Edmonton, London, N.18.

*De Luxe*

# IT'S NEW—IT'S UNIQUE

## A THREE WHEELER WITH CAR-TYPE BOOT AND TELESCOPIC HANDLE

These patented features on the Gresham Flyer De Luxe are creating a big sensation in the junior cycle world. And no wonder. For the first time a child's three-wheeler has a boot like a car, for carrying shopping, school-books and so on, while the new telescopic handle enables mother to control junior if necessary. These are just two of a host of selling points of the Gresham Flyer De Luxe. Write for new illustrated catalogue.
