

MOPED

Sensational newcomer!
WITH AUTOMATIC CLUTCH
 and single-grip control

Takes you there without changing gear

RIDING THE **AUTO-VAP** IS SIMPLICITY ITSELF!

Easy starting avoids the irritating things that go with the riding of an ordinary moped. *With its single twist-grip control, no gear changing is necessary. It has automatic progressive clutch —no declutching.* There's also automatic choke control. This is the only moped with the fabulous "Magneclair" high-efficiency lighting and ignition equipment. Its brakes are super-dependable in full-width, light-alloy hubs. It has deep valance mud guards for full weather protection and long-reach telescopic forks. The AUTO-VAP is the world's finest moped.

de Luxe Model

Combined petrol tank and tool pack.
 57 Gns. incl. P.T.

de luxe Dual Seat Model

58 Gns. incl. P.T.

Super de Luxe Model
