AVON INDIA RUBBER CO., LTD., MELKSHAM, WILTS.

At this stand will be found a large assortment of Avon tyres. The heavy roadster tyres are made of the best possible materials, and the rubber tread being thick will stand exceptionally hard wear. The heavy roadster M tyres meet the requirements of those who want a tyre with a good quality thick rubber tread at a moderate cost. The light roadster tyres are fully equal to any ordinary weight tyres on the market, and are being adopted by the largest bicycle manufacturers. The other qualities are manufactured to meet the demand for a cheap quality tyre, and have proved to be exceptionally good value. Avon motor cycle tyres in three grades are also shown. The firm strongly recommend the heavy extra strong tyre for reliability and wear. The casings are made of very strong Egyptian cotton, and the rubber treads are tough and durable. All grades are supplied with the non-slipping pattern tread, which has proved very efficient in use.
