# THE CYCLE AND MOTOR CYCLE TRADER

FOR THE  
 TRADE ONLY

Vol. XLIV. No.

November 16, 1906

November 30, 1906

be a motor pump, sparking  
 carburetor flooder.

W. & A. BATES, LTD., ST. MARY'S MILLS, LEICESTER.  
 (247)

Pneumatic cycle tyres, wired on and beaded edge, in seven  
 different qualities, motor cycle tyres, wired-on and beaded-edge,  
 and a full range of sundry rubber goods as usual.

BIRMINGHAM. (150, 339, and 340)

W. & A. BATES, LTD., ST. MARY'S MILLS, LEICESTER.  
 (247)

An interesting show of cycle and motor cycle tyres comprises the  
 exhibit on this stand. The firm's high-grade tyre, which is styled  
 the Wyvern, is guaranteed for fifteen months. The Crescent, Ad-  
 vance, and Welbeck roadster tyres are also shown, the latter carry-  
 ing with it a six months' guarantee. A tyre which may be inter-  
 esting to those looking for a very cheap article is to be seen here.  
 This is not guaranteed, but judging from its general appearance,  
 and taking the exceedingly low price into consideration, we think  
 it will be hard to beat. A fine quality of motor cycle tyres, in  
 wired-on and beaded edge patterns, is likewise shown. These are  
 supplied in two weights—heavy and ordinary. The firm also supply  
 a motor repair outfit and a special motor solution, for which a par-  
 ticular efficiency is claimed. A rubber band for vulcanising to  
 covers is shown. Even a much worn cover can thus, to all intents  
 and purposes, be renewed.
