

DUTCH MOPED MAKER SEEKS IMPORTER

EQUIPPED with a 49.9 c.c. two-stroke engine the standard and double-seat auto-cycle models produced by Centro Works, of Schiedam, Holland, are claimed to have a fuel consumption of 200 m.p.g. A two-colour enamel finish is employed.

The standard machine, with telescopic front forks and light alloy hub brakes, has deep

DOUBLE SEAT MOPED MODEL which is produced by Centro-Works, of Holland.

valanced mudguards and a sports type saddle. Oval frame tubing is utilized to ensure lateral strength.

Valanced mudguards with full side panels are a feature of the double-seat model, which also embodies adjustable telescopic rear suspension. Adjustable handlebars, reflecting pedals, luggage grid and re-inforced rear tyre are further specification details. Tank capacity is $1\frac{1}{4}$ gallons.

The manufacturer would be pleased to hear from British concerns wishing to handle distribution in this country.
