Tubular, Light, Strong.

THE DOVER EXONITE INFLATORS.

12 in & 15 in by $\frac{1}{2}$ in.
SEE THAT EVERY PUMP BEARS OUR GUARANTEE.

DEFIES COMPETITION.

THE ORIGINAL INSTANTLY Detached.

The word “Dover” in connection with Cycle Goods is the High Water Mark of Perfection, and as we are now bringing prices well within the reach of all, there is no need to use common imitations of Dover Handles, Revod Chain Covers, etc. Is it worth the candle to substitute rubbishy foreign imitations, when you can get better value in genuine standard British-made articles?
