

The Great 24 HOURS Race,

was won by G. A. PATTERSON, on one of the FAMOUS

DUNLOP

CYCLES

(With Dunlop Tyres).

Total Distance—502 Miles 280 Yards.

WORLD'S 12 HOURS—219 MILES,

British 24 Hours and various Intermediate Records
being beaten.

Another World's Record!

402 Miles in 24 Hours on the Road

was accomplished by Mr. M. A. HOLBEIN, on one of the FAMOUS

DUNLOP

CYCLES

(With Dunlop Tyres fitted with the new Patent Dunlop Puncture Stop
on June 16th.)

If you want a machine that is fast and easy-running on both track and road, we would point out to you that the Dunlop Cycles have proved themselves to be the fastest and easiest running in the world. As may be expected, there are many special features in the Dunlop Cycles which are found in no other machines. We would wish you to do us the favour of examining these good points at your leisure. A handsome illustrated art catalogue, containing many interesting details, will be sent post free on application. We should also like to send you the name and address of our nearest agency, in order that you may know where the Dunlop Cycles can be inspected. We would also be most pleased to arrange for your inspection of any Dunlop Cycle at your residence. We only ask that you inquire into the merits of the Dunlop Cycles before purchasing a machine of another make.

Immediate Delivery of Standard Patterns.

THE DUNLOP CYCLE CO., LTD., COVENTRY.
