

The

BEST TYRE

gives the

BEST SATISFACTION

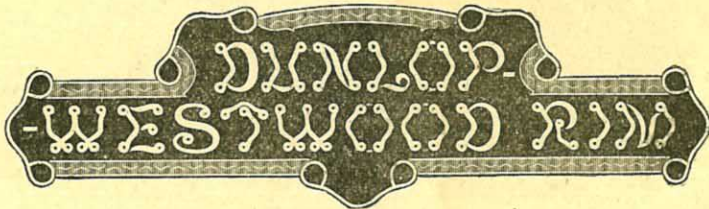

if it is fitted

to the

BEST RIM.

"IT is with great pleasure I forward you this testimonial about your **"Dunlop-Westwood Rims and Tyres."** On Sunday last, May 3rd, as I was going through Sheen Gate into Richmond Park on my Imperial Rover, which has been ridden over 7,000 miles, with a lady also cycling on my left side and several other cyclists close up behind, a boy on an ancient crock ran into my front wheel and finished up by falling (as well as three men also with machines) on top of my machine. No one was hurt, but my front wheel was bent round like a roll of paper and every spoke was loosened, none however were smashed, and, with the help of a friend, **my rim was bent round to its true shape and is not a bit the worse for the mishap.** There were hundreds round at the time of the accident, most of whom expressed surprise at the ease **the rim was bent true again** and I had many enquiries as to what rim it was. Naturally now, I shall always ride and recommend your rims and tyres.

MAX DRUIFFE,
80, Brondesbury Villas,
Kilburn, N.W."

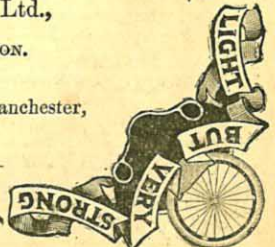

is the best rim for **DUNLOP TYRES.**
