

The Road to Success

GB HANDLEBAR BENDS

G.B. ALLOY HANDLEBARS are made from high tensile aluminium alloy tube, in a special condition, which ensures great strength whilst giving freedom from all possibility of breakage. Supplied in 15/16" diameter with 1" centre.
Dropped bends, with engraved reinforcing ferrule 17/-
Dropped bends, with bulged centre 16/-
Flat bends with bulged centres only 12/6

G.B. STEEL HANDLEBARS are made from mild steel, heavily chrome plated and polished, in the MAES and OLYMPIC patterns only. The diameter is 15/16" with centre bulged to 1". "Tops" have special decorative engraving. Price: 18/-

SOLID FORGED LIGHT ALLOY STEMS

G.B. Alloy Stems are made from solid one piece alloy forgings and machined to fine tolerances. (See illustration of section). Highly polished and fitted with expander and clamp bolt. Proved in Tour de France and Tour of Britain, these stems are the finest in the world for strength and reliability. They are light but perfectly suited for their purpose of fitting to all types of machines. Total sales have exceeded three quarters of a million. The range comprises five popular lengths.

Sectional drawing of Alloy Stem showing the method of machining which provides additional strength exactly where it is needed.

LIGHT ALLOY Hubs

G.B. racing hubs are precision machined from a solid one piece alloy forging. The precision ground ball-cups are packed with "Molykote" grease and sealed with a nylon dust cap to make them virtually impervious to all weather conditions.

The hubs are available in large flange only with Quick Release action.

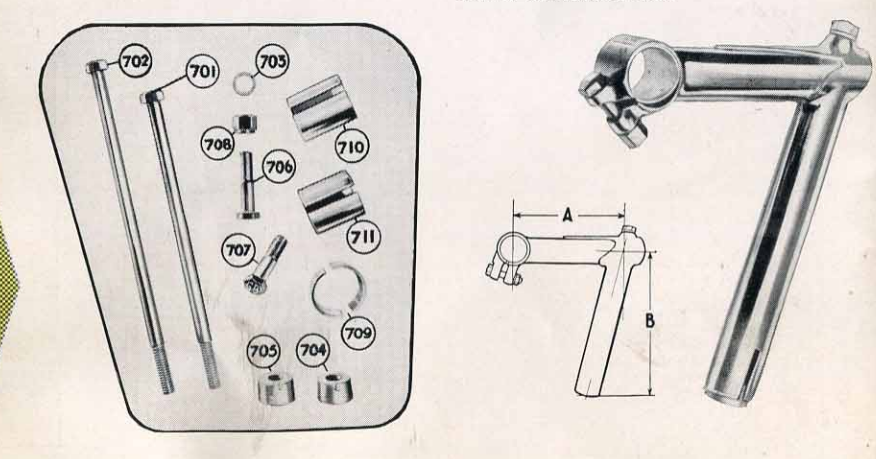

Price: 95/- per pair.

GB KROMO STEEL STEMS

The finest steel handlebar stems available. Handmade from lapped solid drawn KROMO tubes. Attractively finished, polished and heavily chrome plated. In six popular lengths complete with expander and clamp bolt. The stem for the specialist rider.

GB RUBBER ACCESSORIES

The G.B. range includes an attractive variety of white rubber brake accessories designed to fit perfectly. There are three types of lever hoods, a lever sleeve and a cable clamp buffer.

503 Superhood full rubbers—suitable for Superhood Plus and adaptable to Rapide levers	4/6 per pair
506 Stirrup cable clamp buffers	1/6 per pair
507 Arret rubbers (with built in adjusters). Suitable for "Mk. 3" and "Sprite" levers	5/6 per pair
508 Superhood half rubbers—suitable for Superhood Rapide and Superhood Plus levers	4/6 per pair
509 Lever sleeves—for all G.B. levers	2/- per pair

GB WINGNUTS

G.B. WINGNUTS are made to the exclusive thumb and lever design, from solid 'Hiduminium' forgings. Suitable for English threads, front (1/8"), rear (3/8") and special rear wingnuts are made, with toggle bush, for Sturmey Archer hubs (13/32"). Front or rear, per pair 5/6, Sturmey Archer, per pair 6/6.

GB TOE CLIPS

G.B. Toeclips are made from the finest quality stainless steel. They cannot rust, and it is virtually impossible to break them. The clip is well designed to fit the shape of the shoe, and there are no rivets to work loose. The securing screws are fitted with shake proof nuts.

Strong, reliable and well finished the "type Professionnel" toeclip is available in LONG and MEDIUM lengths.

Price 7/6 per pair.

GB CARDED COMPONENTS

Boost your Counter Sales

A large variety of G.B. components and replacement spares are produced and packed for the retailer as "carded display goods".

G.B. products carded but not all illustrated include:—

Spanners	550/1
Wingnuts	6630
Cable Clips	503, 507, 508
Hoods	509
Sleeves	506
Buffers	561, 34P, 6621
Brake Blocks	562, 36P, 6622
Brake Blocks and Shoes	

GB Warranty

We stand by all goods of our manufacture. All usual and reasonable precautions have been taken by us to ensure excellence of materials and workmanship, and in the event of any defect in any "G.B." product which is not caused by wear and tear, misuse, accident, or negligence, being disclosed within six months of its being put into use, we will either supply new parts or components in exchange for those defective, or repair such defective parts or components, free of charge. This undertaking shall be deemed to exclude any and every other obligation whatsoever, and all liability for any loss or damage, however or whensoever caused or arising, except the cost of replacement or repair in accordance with this undertaking.

Coureur 66 Brake

The first SYMMETRIC ACTION cycle brake with all bearings enclosed and nylon bushed. Introduced in time to be put to the most exacting test of the Tour de France and Tour of Britain, now universally available—the proved most efficient cycle brake ever. Special features are:

- The '66' Symmetric stirrup action—light but rigid—through totally enclosed nylon bushed bearings.
- The superior styled 'Superhood Rapide' lever embodying the unique 'Rapide' cable-quick-release. (See illustration).
- The light but sturdy cable hangers which eliminate loss of braking power.
- Entirely new design brake block for best stopping under all weather conditions, and many other refinements to make this the finest brake available. Made from finest materials only. High strength aluminium alloy forgings and pressings. High tensile steel fixing bolts etc.

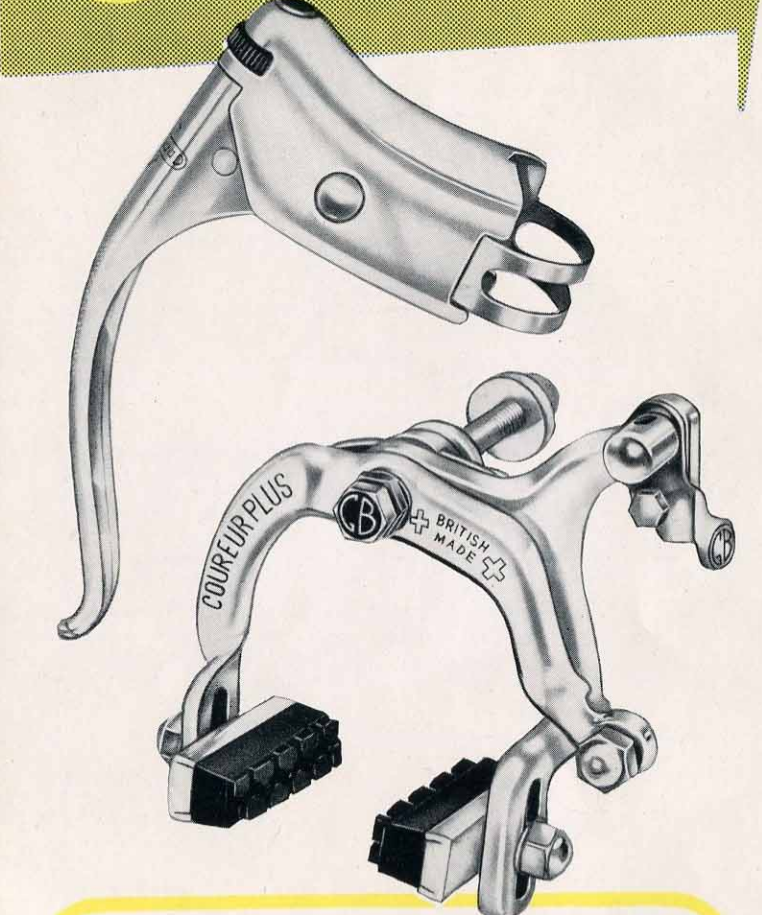

Boxed in pairs—shallow front stirrup. Medium rear stirrup. Supplied as standard with Superhood Rapide lever ... Price 60/- per pair. Also available with Superhood Plus lever ... Price 57/- per pair. Also available with Sport Mk. 3 levers ... Price 54/- per pair.

'66' Cable Clip
Attractive top-tube fitting cable clip. High quality chromium plated finish. In sets of three 2/6

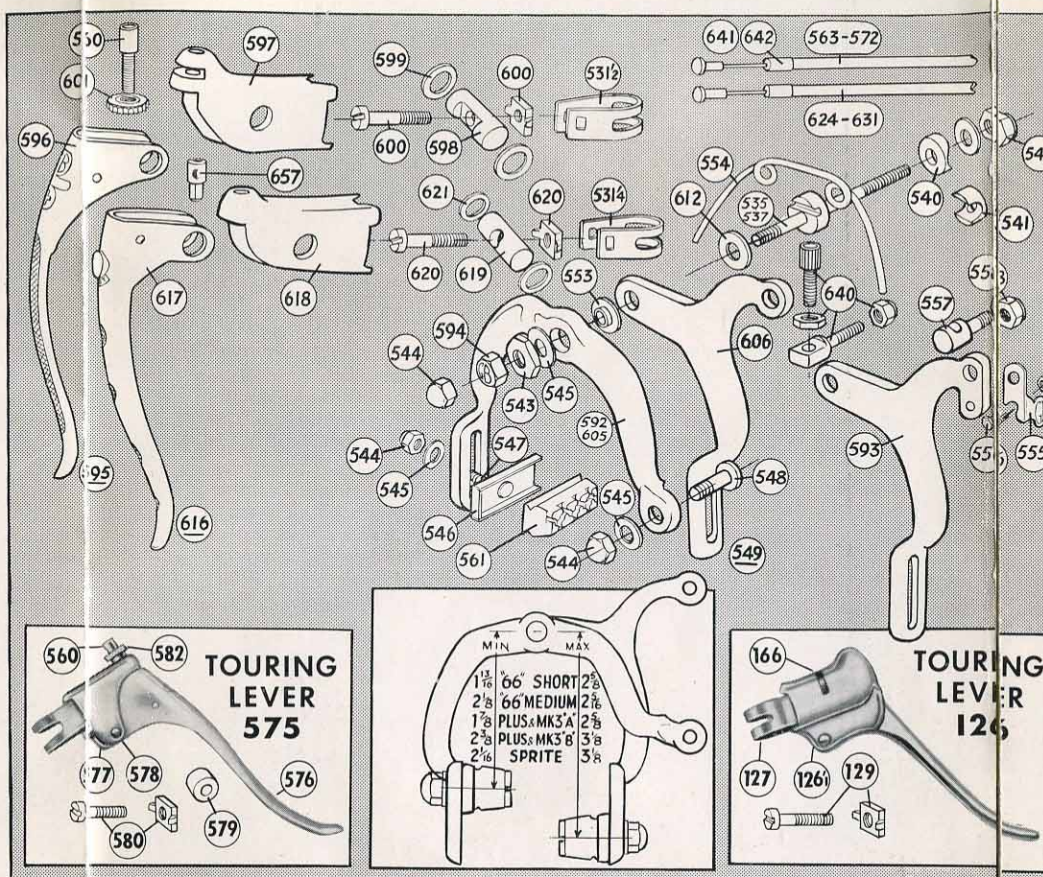

Coureur PLUS

Coureur "Plus" Brake
The most popular and up to date of all side-pull brakes. Used with success in countless races, it has always emerged with flying colours. The brake design incorporates many refinements—nylon bushed action throughout; extra strength cables; Wetgrip brake blocks; efficient cable quick release; G.B. monogrammed dome nuts, and both stirrup and the super styled Superhood Plus lever have an attractive highly polished finish.

Natural polished finish: ... Price: 42/- per pair.
Colour anodised red or blue ... Price: 45/- per pair.

The 575 Touring lever combines well with the Coureur Plus stirrup to effect a perfect brake on touring or sports machines.

Sport MK3

Sport MK. 3 Brake
Designed specially to cater for those persons requiring a high class brake at a very reasonable price. This brake assembly is simple in design and effective in action. The lever, short in reach and very stylish, embodies a novel optic monogram. The stirrup, short in reach and the traditional G.B. form, and is available in A or B depth. Domed nuts and studded brake blocks are standard.

Price: 38/- per pair.

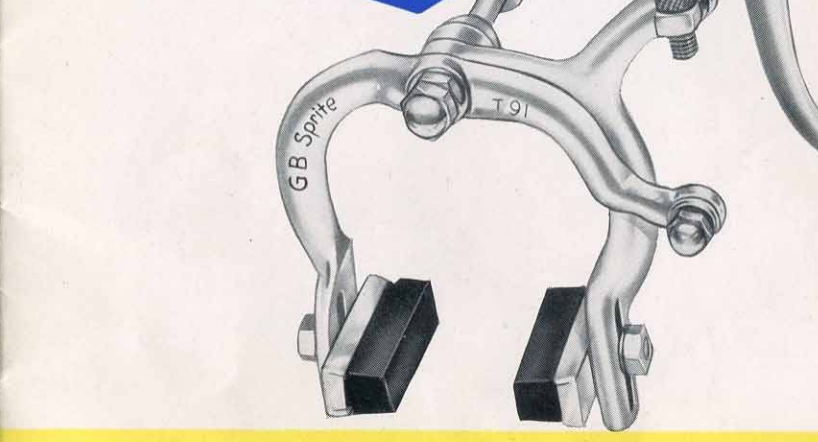

The 126s Touring lever converts the Sport Mk. 3 into an attractive brake for fitment to Touring and Sports machines.

G.B. Sprite

The "Sprite" brake is intended as the junior of the G.B. range, and as such it provides a simple, but effective, brake at a low cost.

The hooded lever has a short reach, and the stirrup is available in one depth only, as an alternative.

Price: 34/- per pair.
