HICKING— SPECIALISTS IN LIGHTWEIGHT CYCLE ACCESSORIES

A LONG period of specialisation in the lightest of light accessories for bicycles has made Messrs. Hicking, of Station Approach, Hayes, Kent, expert in the production of duralumin cycle fittings and accessories, and their special lines are renowned amongst clubmen everywhere for their super-lightness and efficiency. These accessories include feeding bottles, toe clips, wing-nuts, pedals, mudguards, bells, handlebars, chainwheel sets, etc., etc., whilst one of their most discussed specialities is their duralumin dynamo set, which, completely equipped, weighs less than one pound.

A casual glance through the latest Hicking catalogue reveals several outstanding productions, including special toe-clips at 2s. 3d. per pair, there being also many other types at various prices. Handlebar bends are another special line, these being available in duralumin in a number of different styles.

The "Banfi-Canti" rim for tubular tyres in solid duralumin will arouse the interest of many racing men. The rims are made in 26 in. and 27 in. sizes, weigh 14 oz., and sell at 32s. 6d. per pair. These rims are also manufactured for wired-on tyres in 27 in. by 1 1/4 in., 26 in. by 1 1/4 in., and 26 in. by 1 3/8 in., the cost being 35s. per pair.

The Brivio chainwheel set in duralumin, weighing approximately 19 oz., is another line of Messrs. Hicking that will have a strong appeal for the super-speedy rider. The price complete, including pair of cotters, is 24s. 6d. the set. All those riders who are interested in the scientific saving of weight in cycle accessories should send p.c. to the address given at the beginning of these notes for fully illustrated catalogue.
