

## ... a real winner

"There is not the slightest doubt that this is going to be *a real winner*. It has everything a good Scooter should have. It appealed to me on every occasion and I was unable to find a single criticism worthy of comment. Without a doubt it handles better than any other Scooter I have ridden, both at high and low speeds."

# WHY?

Why is the James 150c.c. Scooter so popular with people who want the pleasure and convenience of owning their own transport? That's easy! The James is a luxury-built scooter which is a joy to ride yet inexpensive to buy and very economical to run. It handles superbly, its braking and roadholding are excellent, it behaves perfectly at high or low speeds. In fact the James is unsurpassed for good looks, comfort, handling safety and economy. That's why.
