NEW

One of the most progressive cycle component manufacturers in Italy, Ofmega produce Chainwheel Sets, Bottom Brackets, Head Sets, Hubs and Pedals in largely automated factories using titanium, alloy and steel.

TITANIUM—THE ULTIMATE QUALITY

Model 2100 : Ultra-lightweight stamped alloy double chainwheel set with ground teeth. 5-pin black anodised cut-out detachable rings with slotted arms. Forged fluted alloy cranks, milled and serrated. Exclusive shaped, well-champhered crank shoulders. Allen key bushes and bolts. Hand finished throughout. 42/52 teeth combination with 170 mm cranks. Weight : 520 gms complete.

Model 2200 : Patented ultra-lightweight bottom bracket set. Alloy cups with cylindrical roller bearings and bush thrust ball bearing. Titanium axle and crank arm fixing bolts. Spindle lengths suitable for 68 mm shell. Weight : 185 gms.

Model 2300 : Ultra-lightweight magnesium alloy small flange 36-hole hubs. Fitted with special sealed ball bearings and titanium spindles. Super de-luxe Q/R mechanisms. Available for 5- and 6-speed freewheels. Weight : Front 160 gms, rear 210 gms.

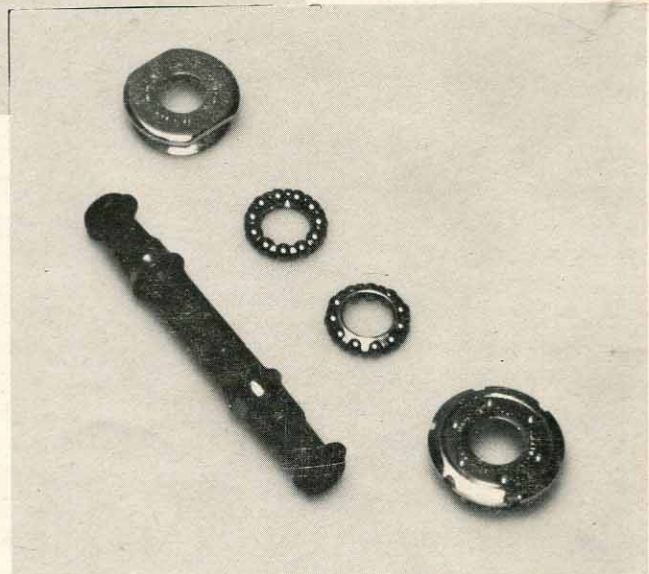

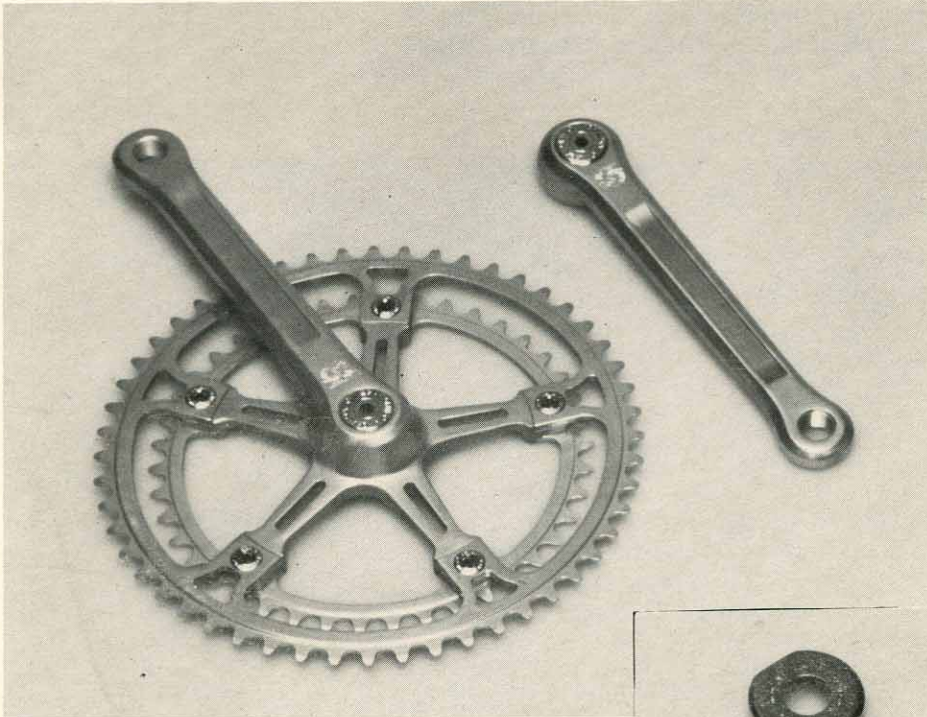

Model 2400 : Forged ultra-lightweight alloy pedals with cylindrical roller bearing and ball bearings. Titanium spindles. Weight : 270 gms.

Model 2500 : Titanium handlebar expander bolt with light alloy nut.

SUPER COMPETITION ALLOY CHAINWHEEL SET

NEW

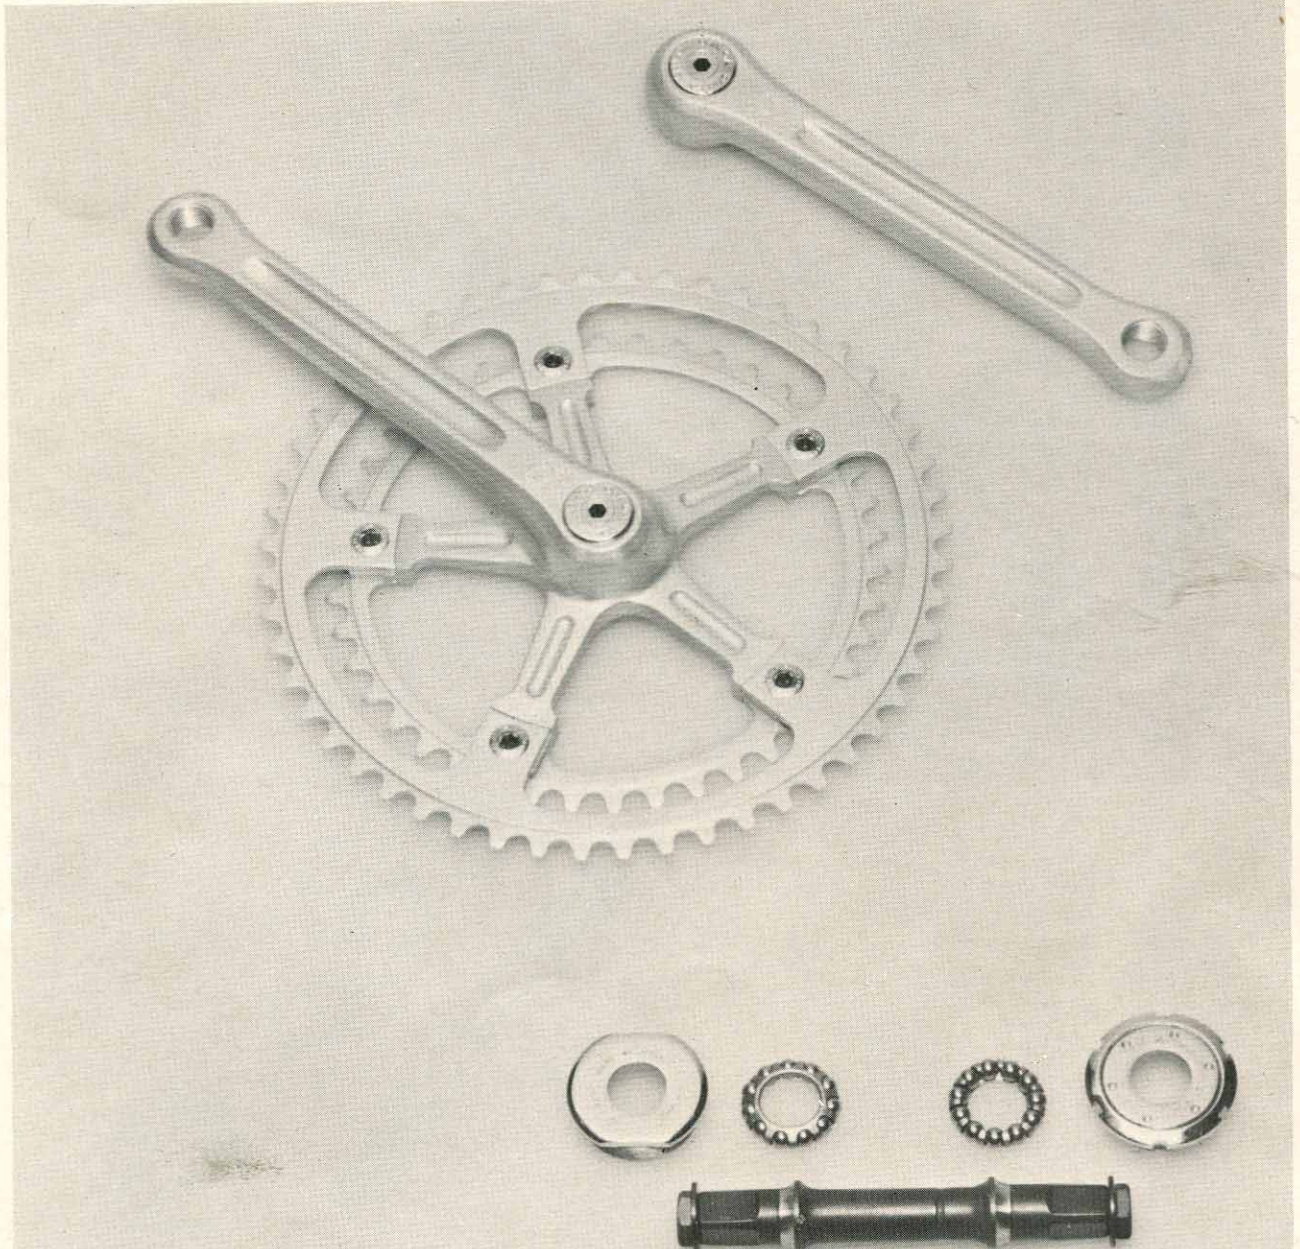

Superlight stamped double alloy chainwheel set with ground teeth.
5-pin anodised and cut-out detachable rings with slotted arms.
Forged alloy fluted cranks, milled and serrated.
Well chamfered exclusively shaped crank shoulders.
Allen key bushes and bolts.
Hand finished throughout.
Weight : 570 gms.
Model 1090 Cranks 170 mm.
Model 1000 Chainwheel Combination : 42/52 teeth.
Supplied with Model 7000 bottom bracket, details on page 24
Rings interchangeable with Campagnola and other leading makes.
Supplied with Model 1990 extractor tool.

COMPETITION ALLOY CHAINWHEEL SET

NEW

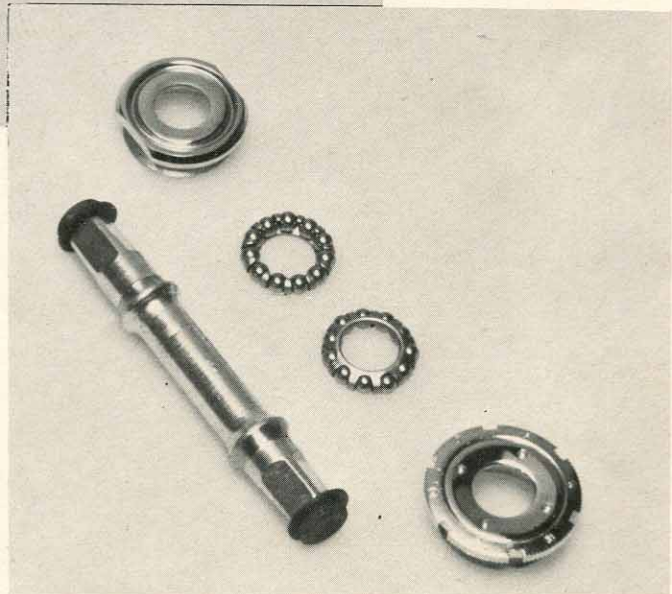

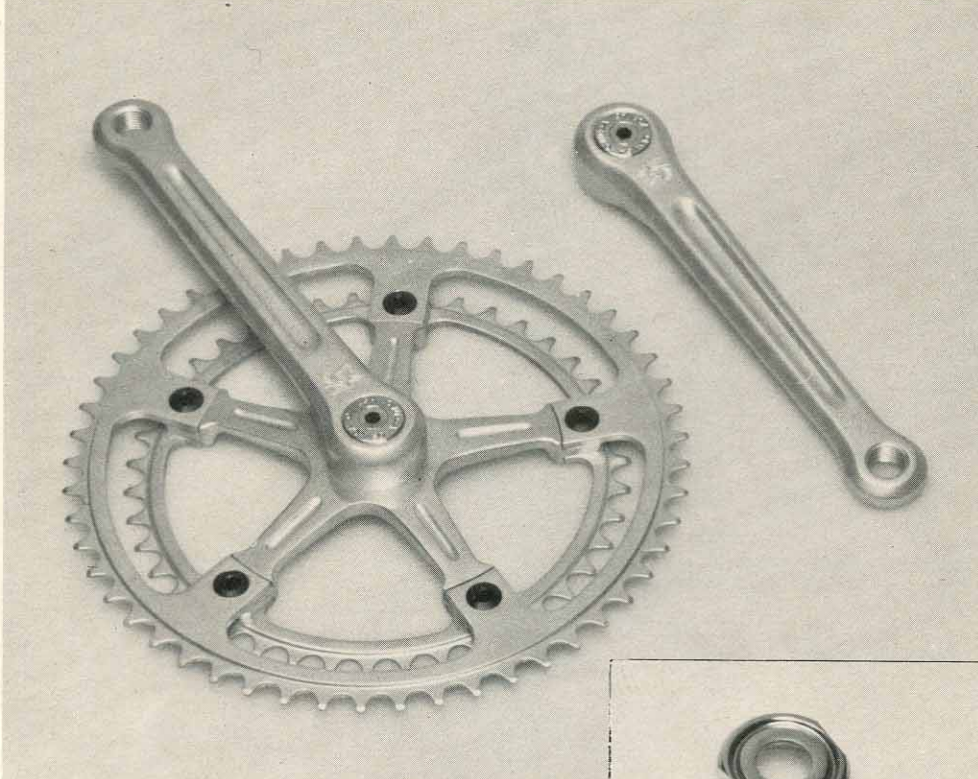

COMPETITION stamped double alloy chainwheel set with ground teeth.
Similar to the SUPER COMPETITION model with unique shape and well chamfered crank shoulders.
5-pin anodised detachable rings.
Forged alloy fluted cranks.
Allen key bushes and bolts.
Hand finished throughout.
Model 1190 Crank : 170 mm.
Model 1100 Chainwheel combination : 42/52 teeth.
Supplied with Model 7000 bottom bracket (details on page 24).
Rings interchangeable with Campagnola and other leading makes.
Supplied with Model 1990 extractor tool.

GRAN PREMIO ALLOY CHAINWHEEL SET

NEW

GRAN PREMIO stamped light alloy cotterless double chainwheel set with ground teeth.

High quality assembly.

5-pin detachable rings.

Black anodised Allen key bushes.

Forged alloy fluted cranks—Model 1290: 170 mm.

Model 1200 Chainwheel combination: 42/52 teeth.

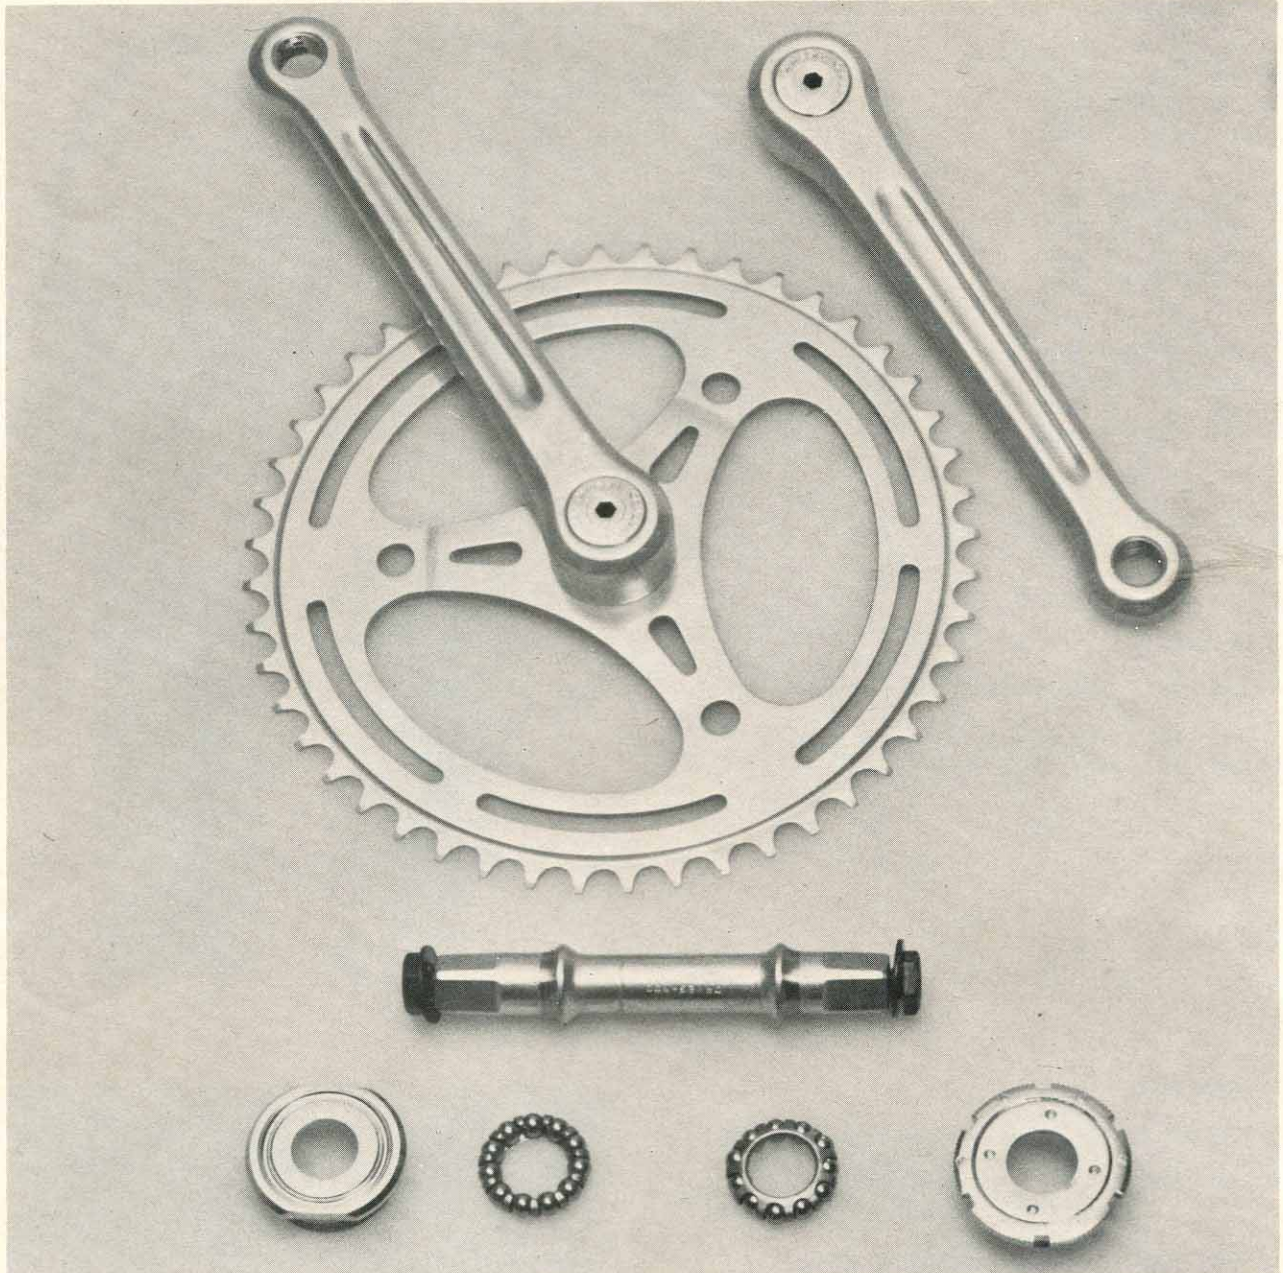

Supplied with Model 7100 bottom bracket and

Model 1990 extractor tool.

TURISIMO ALLOY CHAINWHEEL SET

NEW

Model 1920

Cotterless, pressed light alloy, single interchangeable chainwheel set.

170 mm cranks.

48 teeth ring.

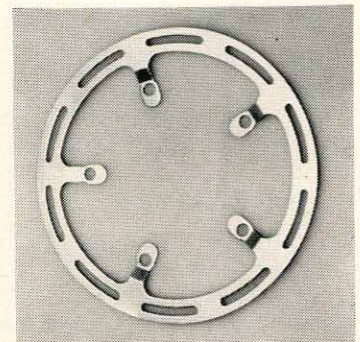

Supplied with Model 7100 bottom bracket set.

OFMEGA

Alloy chainwheel protector.

Model 1970 for 52 teeth rings.

Slotted, 5-arm fixing.

HEADSETS

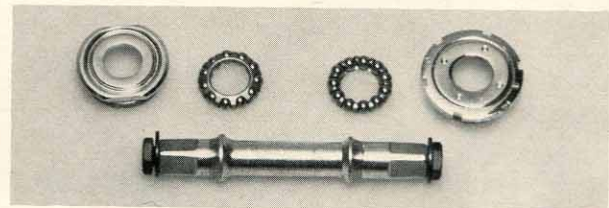

Model 8000: Nickelled chrome steel, ball races selected and ground bearings.
Model 8100: De-Luxe chrome-plated special steel and ball races with black anodised sections. Boxed.
Model 8200: Chrome-plated steel. Boxed.

8100

BOTTOM BRACKET SETS

Model 7000: Nickelled chrome steel with ball races, selected and ground bearings. Spindle length suitable for 68 mm shell.
Model 7100: Special steel with ball races.

7100

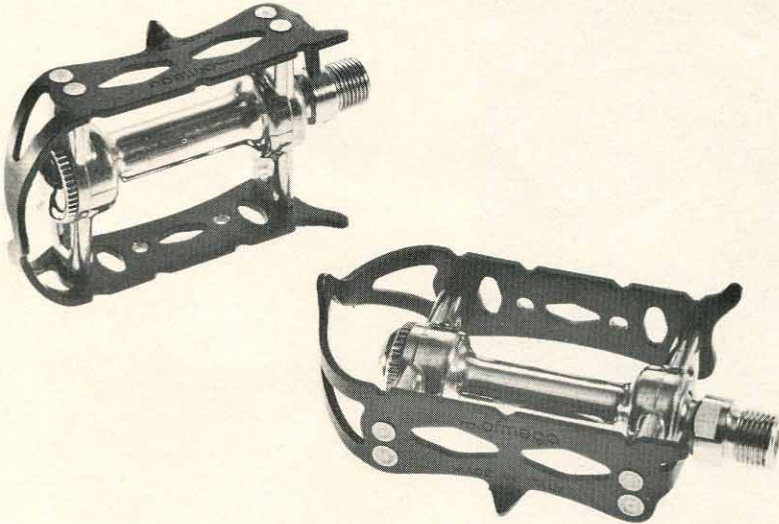

OTHER PARTS

Model 107 and 108 set of 5, black anodised or chrome Allen Key, nuts, bolts and braces.
Model 0100: Dust caps.
Model 1990: Extractor tool, black, polybagged.

ALLOY QUILL PEDALS

NEW

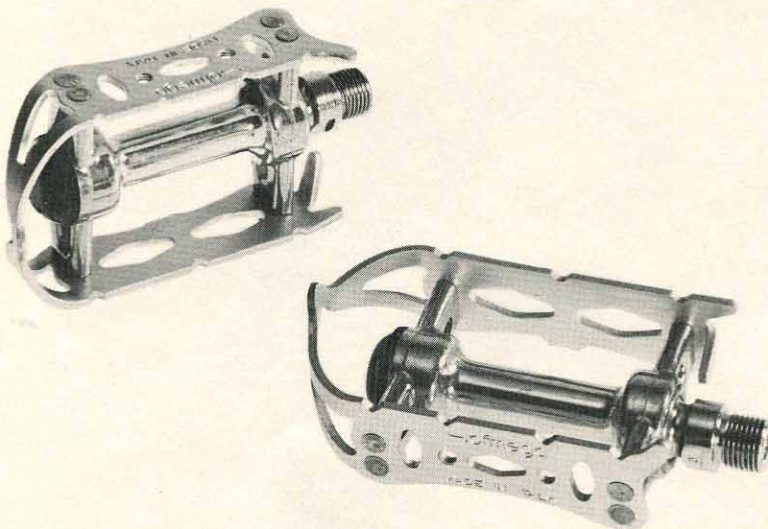

Model 9600

Quill pedals of lightweight alloy throughout with cut out sides and ends.

Polished barrel, black anodised cage and caps.

Ground bearings.

Weight: 320 gms

Model 9650

Lightweight alloy throughout.

Cut out sides and ends.

Silver anodised.

Weight: 320 gms

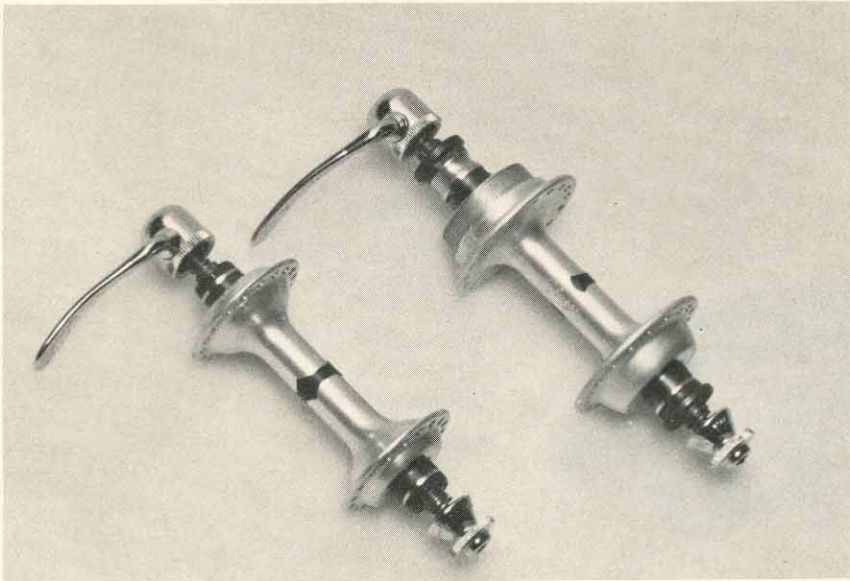

Spare Parts available on request.

ALLOY HUBS

NEW

6000 SUPER COMPETITION

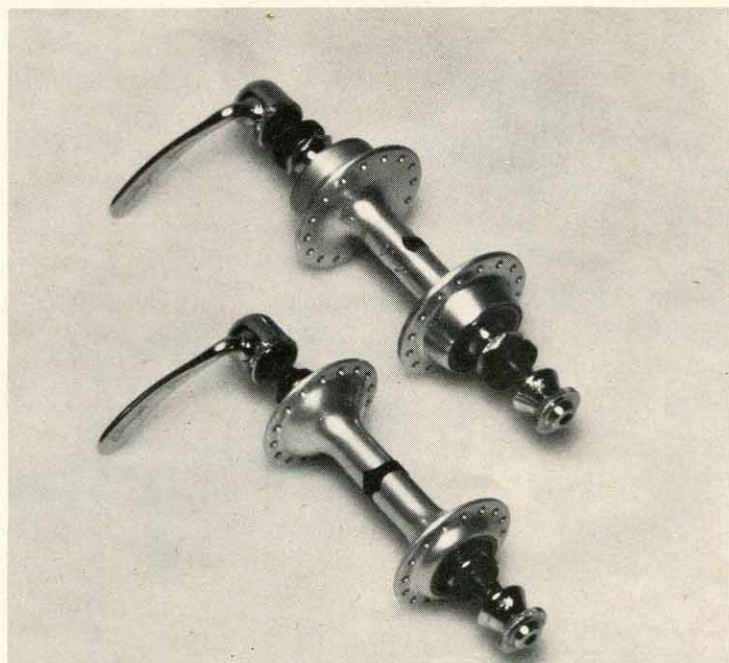

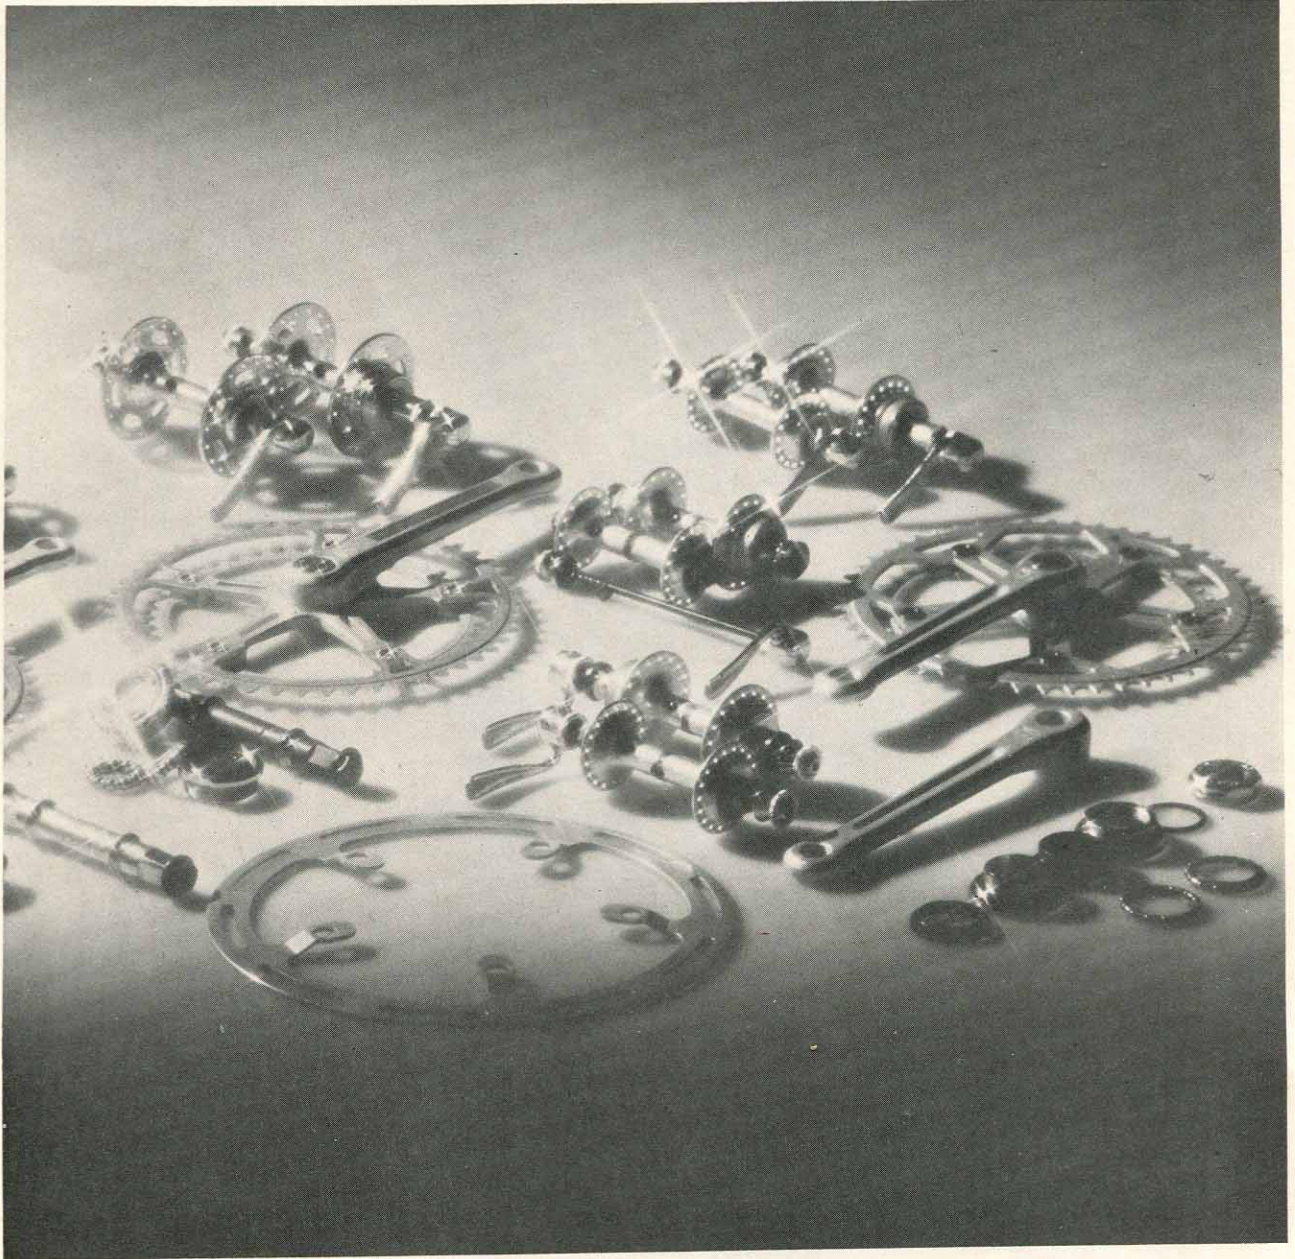

Extra lightweight: only 495 gms pair with quick releases.
Lighter than most comparable models.
Unique design and smooth running.
Precision machined ground races and quality sealed bearings.
Quick-action release mechanisms.
Spring lubricator.
Silver anodised with small flanges.
5- or 6-speed. 36 hole.

6100 COMPETITION

Similar design to Super Competition model.
Silver anodised and hand finished.
5- or 6-speed. 36 hole.

Spare Parts available on request.

**HIGH QUALITY BICYCLE PARTS
IN ALLOY AND STEEL.**

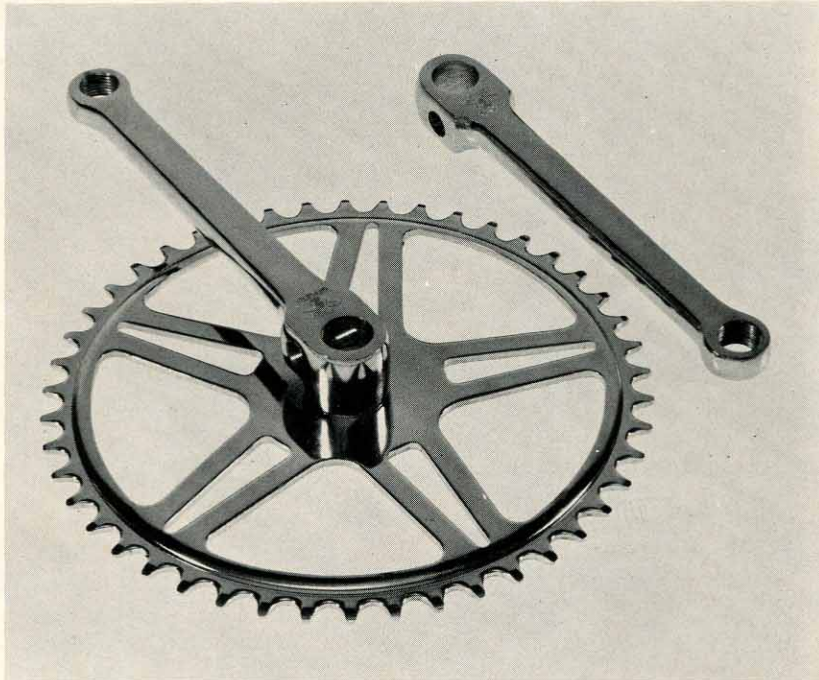

NEW

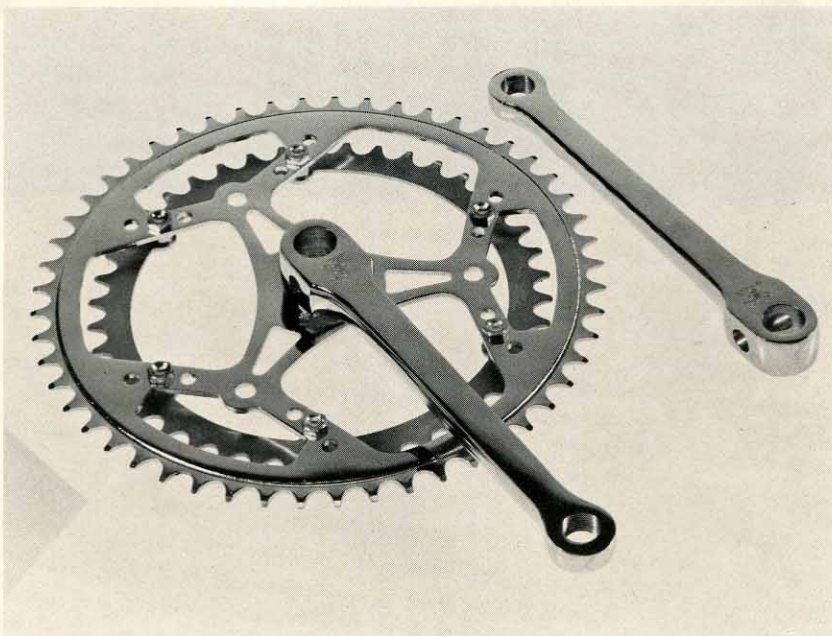

STEEL CHAINWHEEL SETS

are manufactured to high quality standards. The deep lustre finish is obtained from a special plating process involving an initial coating of dull nickel, then copper, followed by bright nickel before a final coating of chrome. This process affords a high degree of protection against a harsh climate.

Model: 4000.
Single $\frac{3}{32}$ " NGCC.
Single $\frac{1}{8}$ " NGCC & GCC.
Available in 46 and 48 teeth.
170 mm ($6\frac{3}{4}$ ") and 165 mm (6")
fluted cranks. (not as illustrated)
5 arm rings with cut-outs.

Model: 3120.
Double $\frac{3}{32}$ ".
Available in 42/52 teeth
combination.
170 mm ($6\frac{3}{4}$ ") and 165 mm (6")
plain cranks.

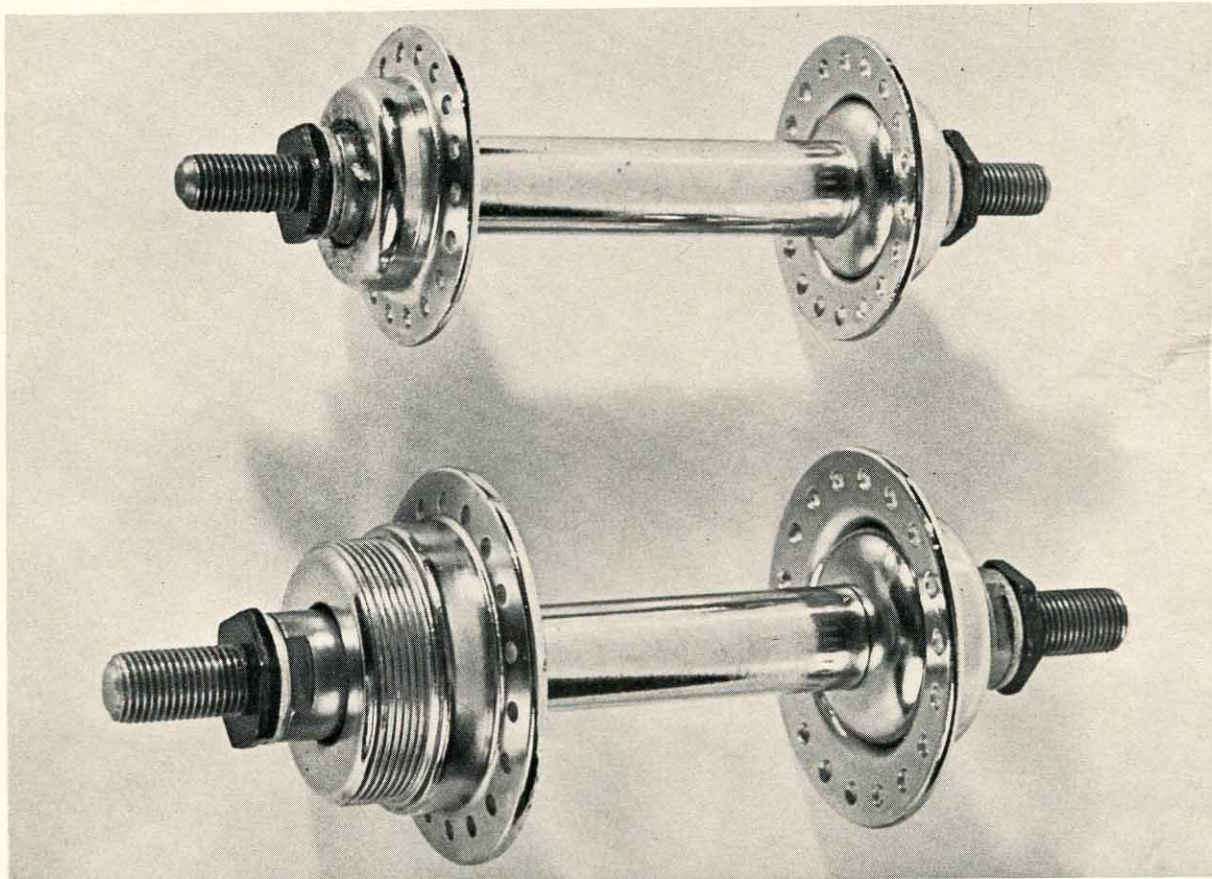

Model: 3950.
Steel chainwheel protector for
52 teeth rings.

NEW

Manufactured in one continual process, Omega steel hubs are precision machined, specially assembled and very competitively priced with other makes of steel hubs.

- * Front hubs with ball races.
- * Integral dust cap and cones on front hubs.
- * Highly polished finish—no excess grease.

Steel hubs

An exceptional highly polished finish is obtained from a special four-phase plating process :

1. Dull nickel coating.
2. Copper coating
3. Bright nickel coating.
4. Chrome coating.

Small flange single-speed.

Model 5800 : Front 5851 36 hole
Rear 5852 36 hole

Model 5870 : Front 5871 28 hole
Rear 5872 28 hole

Model 5895 : Front 5896 32 hole
Rear 5897 40 hole

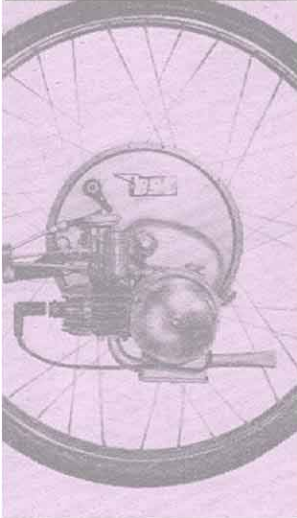

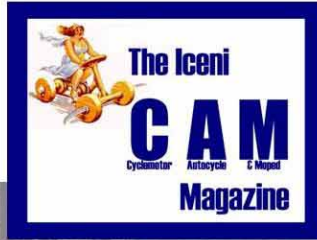

Small flange five-speed.

Model 5852 : Rear 36 hole

Model 5897 : Rear 40 hole
