The **NEW**

Palmer PIXIE

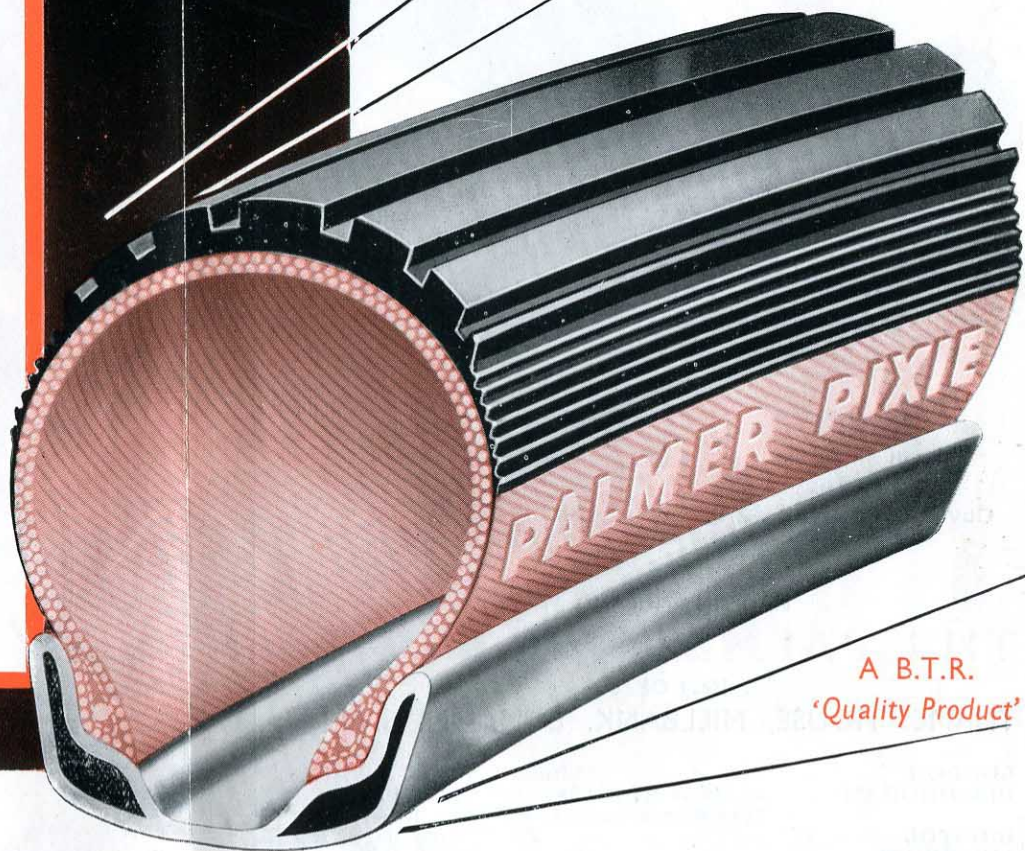

HERE is a new tyre de luxe for the keen Clubman—a super product of Palmer craftsmanship and therefore certain to satisfy the most exacting needs of enthusiastic, well-informed riders.

“PIXIE” weighs a mere 16ozs., yet has the strength and stamina of the thoroughbred. Its casing is a marvel of supple luxury; its fine ribbed tread is an ideal medium for the transmission of power into pace without waste of effort. Thanks to expert, experienced design, each “PIXIE” cover will sit snugly and securely on its 26 x 1 $\frac{1}{4}$ ” rim and is perfectly balanced.

Palmer recommends this new tyre with absolute confidence. It makes riding at sustained speed a tireless joy.

The Palmer “PIXIE” Tube is made especially light for the “PIXIE” Cover and should always be used.
