hether it is in
t remains that
the rumoured
the Govern-
4, presumably,

not have the effect of killing the goose that lays the golden egg; but this would be no consolation to the motor cyclist who is absolutely frozen out. It is far better to prevent spilling the milk than to cry afterwards. P. SMITH.

An old tandem motor cycle, modernised by J. J. W. Pater, of Bedford, and still doing good service. The engine is an old pattern $2\frac{1}{2}$ h.p. Minerva, to which a magneto and B. and B. carburetter have been fitted.

Catalogue number *SPE03*
Price code *A*
Date *28 February 2016*
