# PERRY HUB BRAKE

*The modern  
system of  
FOOT BRAKE CONTROL*

Perry is a safe name to be guided by, and the Perry Hub Brake is the safest system of Foot Brake Control for all cycles on all roads and gradients. Produced by one of Britain's leading exponents of precision engineering it is guaranteed to give safe, trouble-free service for many years with the minimum of attention. It can be fitted as standard equipment on manufacture, or adapted to any existing machine with ease.
