

NEW All-British mo-ped and scooterette the *Foybike* is now in production. Manufacturers are H. V. Powell (Cycles) Ltd., of 96-98 Birchfield Road, Birmingham 19. It uses the 49 c.c. *Trojan* engine with belt primary drive and belt final. The expanding pulley on the primary drive gives three speeds to the engine. *Wipac* lighting and *Amal* carburettor together with 23 x 2in. *Dunlop* tyres contribute to this all-British machine. In its scooterette form the *Foybike* is supplied completely enclosed and in the mo-ped form with rear engine cover on near side. This is built a simple machine that can't go wrong". The makers say that all that is required on the subject of servicing is to "leave it alone". Apart from cleaning plug and magneto points occasionally, and oiling cables and chains, no other maintenance is necessary. Price: Scooterette £65. 0s. 0d., mo-ped single gear £55. 0s. 0d. both include tax.
