RALEIGH INDUSTRIES LIMITED

NOTTINGHAM

IF the thoughtful and critical reader should wonder why the name of Raleigh, the all-steel bicycle, has dominated the world scene for more than half a century, he is invited to contemplate the following important facts:

The great Raleigh Industries plant at Nottingham covers 40 acres, housing the largest and most modern equipped cycle plant in the world. Inside this vast industrial empire, 7,000 employees, aided by all the latest developments of the scientific age, have established an all-time high standard of design, specification and quality.

By long tradition the keynote of the Company's policy has always been 'Quality', and it is interesting to note that, despite the great output, every machine is a thoroughbred of its kind, which is one of the main reasons why the Raleigh cycle is in such demand throughout the world.

Your local Dealer – there is one in every town and village – will be happy to show you our famous products, help you select your cycle, and if you so desire, acquaint you with our simple Easy Payment Scheme acknowledged to be the best in the industry.

Most Raleigh cycles are now built of '2030', the new High Carbon content steel tubing. '2030' gives a stronger and more rigid cycle combined with extra liveliness. Look for the '2030' transfer.

YOU CAN ENJOY MAGIC CARPET CYCLING
ON THE EASY TROUBLEFREE

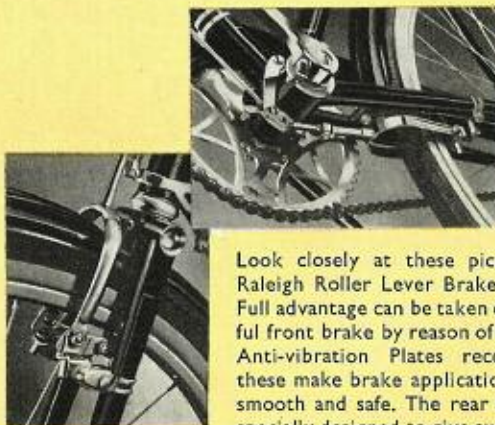

RALEIGH

Outstanding Features of the Famous Raleigh Cycles.

- ★ Raleigh Enamelling and Chromium Plating
acknowledged to be the finest in the Industry
- ★ '2030' High Carbon Steel Tubing
- ★ Sturmev-Archer Gears, Dynohub Lighting Sets
and Hub Brakes (see page 25)
- ★ Patent Thief-proof Lock (see page 3)
- ★ Patent Anti-vibration Front Brake
- ★ Unrivalled in Design, Specification, Quality and Finish
- ★ Dunlop Tourist Sprite and Speed Tyres
- ★ Brooks' and Terry's Saddles
- ★ Renold Elite Chains

Look closely at these pictures of the Raleigh Roller Lever Brake mechanism. Full advantage can be taken of the powerful front brake by reason of the patented Anti-vibration Plates recently added, these make brake application extremely smooth and safe. The rear brake is also specially designed to give super efficiency under all conditions.

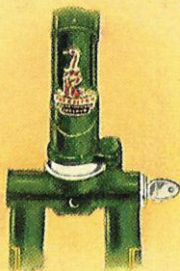

Special features of THE RALEIGH SUPERBE MODELS

THE MOST COMPLETELY EQUIPPED BICYCLES IN THE WORLD
... ALWAYS READY FOR THE ROAD BY DAY OR NIGHT

ALL RALEIGH SUPERBES are equipped with the Patent Automatic Filter Switch Unit, which incorporates the following striking advantages:

- 1 With the headlamp switch in the 'on' position, a light is given at all times, whether the machine is stationary or in motion.
- 2 Whilst stationary and at very slow speeds, three standard dry battery U.2 type cells provide the light.
- 3 As speed increases, the Filter Switch automatically cuts out the batteries and changes over to the Dynohub.
- 4 This procedure is reversed as speed decreases.
- 5 The patent Filter Switch is foolproof, having no moving parts and requiring no service.
- 6 Keeps usage of battery current to a minimum at slow speed and thus ensures long battery life.
- 7 When batteries are exhausted or removed, the Dynohub will operate as a direct lighting unit until new batteries are fitted.

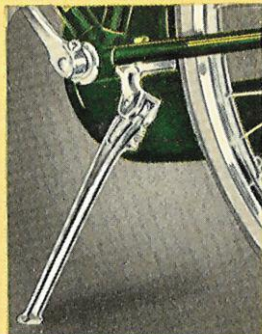

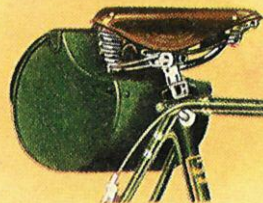

A REVELATION IN CYCLE LIGHTING : UNIQUE : SIMPLE : TROUBLEFREE :

THE RALEIGH PATENT FRONT FORK LOCK. A thief-proof locking device fitted into the fork crown of most Raleighs, when operated by the key positively secures the steering of the bicycle in any one of three positions. By turning the key an internal locking bolt engages a locking plate attached to the bottom head lug of the frame, thereby preventing movement of the handlebar and making the bicycle unrideable. When the key is withdrawn, the mechanism in the 'steering fixed' or 'steering free' position is positively locked, consequently when the cycle is being ridden the locking bolt cannot operate inadvertently. It is essential that the cycle is not ridden with the key in the lock.

LIGHT ALLOY PROP STAND. This strong and very useful stand, made of light alloy, is standard equipment on all Superbe Models. Instantly and easily operated with the foot, it will appeal particularly to riders who have many calls to make. When not in use, the stand folds unobtrusively away.

THE NEAT KITBAG specially designed for and supplied with all Raleigh Superbe Models. Finished in Green to match the rich enamel of the frame.

Model 31L

THE RALEIGH 'WINKIE' TRICYCLE

Model 32

Your kiddies can't have a healthier, happier hobby than cycling – or an easier, safer way of learning to ride than on a Raleigh Winkie tricycle. Quality-built in every detail, a Raleigh Winkie is delightfully easy-running, really hard-wearing and beautifully finished.

SPECIFICATION – Frame: Main frame Twin Tube, brazed throughout. Rear frame is detachable to facilitate chain adjustment and storage. **Fork:** A 'safety' fork designed to enclose the front brake and restricting the turning angle to a maximum of 85° either side. **Handlebar and Front Brake:** North Road Raised with Expander Bolt fixing. Roller Lever front Rim Brake. **Wheels and Tyres:** 16" Rims. Specially designed *Dunlop 'Air-sprung'* puncture-proof tyres. Pneumatics available at extra charge. Free-wheel on rear axle. **Mudguards:** Deep section, rigidly mounted. **Chain-guard:** Designed for smartness, strength and complete protection from chain, gearwheel and freewheel. **Bottom Bracket:** Standard cycle design. **Chain:** $\frac{1}{2} \times \frac{1}{8}$ " Best Roller. **Pedals:** 3" Rubber. **Bearings:** Fully ball-bearing and adjustable in steering head, front wheel, rear axle, bottom bracket and pedals. **Front Metal Basket:** Strongly made, mounted on the front fork. **Fittings:** Toolbag. **Finish:** Choice of two attractive colours. Bright Red or Worcester Blue – mudguards, metal basket and chainguard finished in White enamel – all on Spra-Bonderized rust-proof surface. Bright parts Raleigh-Chromium plated.

Net Cash Price **£9.9.6** Tax paid. With Pneumatic Tyres **£9.19.6** Tax paid.

THE CIRCLE OF SILVER KNIGHTS

All Winkie owners can become Shield bearers of the Circle of Silver Knights. An idea that encourages youngsters to learn and practice road safety right from the start. They receive an illuminated Scroll on enrolment and, after 12 months, this handsome antique finish silver badge – entirely without charge.

Take the Raleigh Magic Carpet route for Safety's sake.

Raleigh enamelling and chromium plating is acknowledged the finest in the Industry.

The RALEIGH SCHEME OF GRADUAL PAYMENTS

THE EASIEST, FINEST, AND MOST POPULAR IN THE INDUSTRY

COMPREHENSIVE INSURANCE COVER AGAINST LOSS AND DAMAGE IS PROVIDED FREE ON THE RALEIGH SCHEME

NOTE: If an independent finance scheme is offered, customers should not assume that insurance cover is provided. An enquiry should be made before the transaction is entered into.

It will pay you to ask for the 'RALEIGH SCHEME'

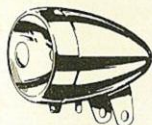

The fitment of a motorized unit renders the Insurance VOID

LIGHT and Easy Riding -

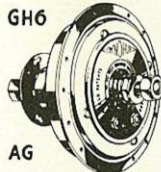

HEADLAMP (Roadster)

The Roadster headlamp is fully enclosed and of pleasing shape. It is supplied in either Black or Silver finish with Chrome rim.

HEADLAMP (Sports)

Introduced in response to many requests for a small streamlined Headlamp. Attractively designed, it is fully enclosed and can be supplied in Silver or Chrome finish.

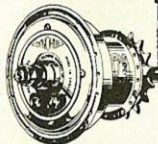

DYNOHUBS

GH6 Patent 6-volt Dynohub. Like all our Dynohubs it is mechanically frictionless and trouble-free.

AG, AW Wide Ratio Three-speed hub, combined patent 6-volt Dyno.

FG FW Wide Ratio Four-speed hub, combined patent 6-volt Dyno. By combining the gear and Dyno in one unit, a great saving in weight is made.

REAR LAMP

A much improved edition of the original model, all plastic, fully streamlined, giving a wide range of visibility. Unique in its simplicity and appearance.

DRY BATTERY UNIT

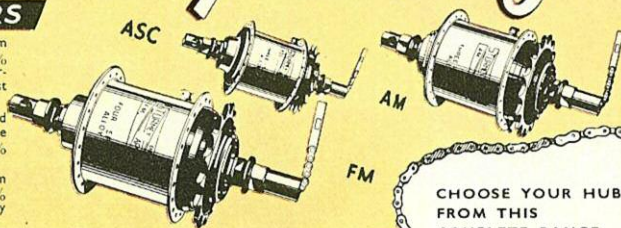

This is available with any of the Dynohubs illustrated above. It provides, with the aid of three batteries, a light when stationary.

CLUB GEARS

FM Four-speed Medium Ratio, 12.5% increase, 14.3% and 33% decrease from normal. Unquestionably the best all-round Club gear.

ASC The only Three-speed Fixed Hub manufactured in the world today. 10% and 25% decrease from direct drive.

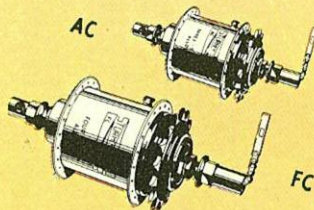

AM Three-speed Medium Ratio, 15.55% increase, 13.46% decrease from normal. Ideally suitable for Sports machines.

RACING GEARS

AC Three-speed Ultra Close Ratio. 6.66% increase and 7.7% decrease from normal. The time trial gear!

FC Four-speed Close Ratio. 9.1% increase, 10% and 25% decrease from normal. Specially designed for Massed Start Races.

CHOOSE YOUR HUB FROM THIS COMPLETE RANGE

All Variable gears are fitted with quickly detachable Splined Sprockets which enable you to alter gear range easily and quickly.

The Club and Racing gears are all supplied with **QUICK Release** fittings and **Alloy Shells**, one-third the weight of steel.

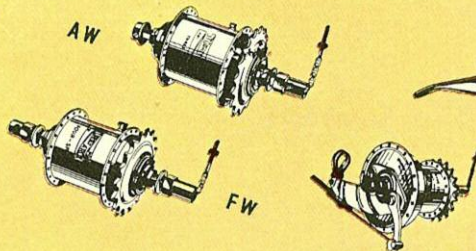

The FW Wide Ratio Four-speed hub is now also standard with **Alloy Shell**.

ROADSTER GEARS

FW Four-speed Wide Ratio. The great advantage of this hub against the corresponding three-speed, lies in the fact that there are two normal gears. Ratios give 26.6% increase, 21% and 33% decrease from normal. There is no doubt that this is THE Hub of the future, as far as Roadster machines are concerned.

AW Three-speed Wide Ratio, 33% increase, 25% decrease from normal. Specially suitable for Roadster machines.

ABC Three-speed Wide Ratio incorporating hand-operated internal expanding brake.

TRIGGER CONTROL

The Sturmey-Archer Patent 'Flick' Trigger Control provides an instantaneous change of gear by the flick of a finger.

NOTE THE VISUAL GEAR INDICATION

STURMEY-ARCHER

The Original and Best

THE "FOR EVER"

Guarantee

OUR GUARANTEE is unique. From the 1st of January, 1907, Raleighs have been guaranteed by us against defects of manufacture WITHOUT ANY TIME LIMIT; no matter when such defect shows itself, we replace the defective part gratis as long as the machine shall remain the property of the first retail purchaser. This guarantee is subject to the conditions specified below.

CONDITIONS OF GUARANTEE

With all machines and component parts of our manufacture we give a special guarantee instead of the guarantee implied by statute or otherwise as to the quality or fitness for the purpose of cycling of goods supplied by us, any such implied guarantee being in all cases excluded. In cases of machines which have been used for 'hiring-out' purposes, or in respect of which our trade mark or manufacturing number has been removed, no guarantee of any kind is given or is to be implied.

We guarantee, subject to the conditions mentioned below, that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, but damage for which we make ourselves responsible under this guarantee is limited to the free supply of a new part in exchange for the part of the bicycle or tricycle which may have proved defective or (at our discretion) to the repair of the original part, and does not include the cost of fitting. The purchaser shall not be entitled to claim any damage whatever save replacement of the defective parts. THIS GUARANTEE DOES NOT APPLY TO DEFECTS CAUSED BY WEAR AND TEAR, MISUSE OR NEGLIGENCE. THE EMPLOYMENT OF A MOTOR ATTACHMENT CONSTITUTES A MISUSE OF THE MACHINE.

If a defective part should be found in any of our machines it must be sent to us carriage paid, accompanied by an intimation from the sender that he desires to have it replaced free of charge under our guarantee, and he must also furnish us at the same time with the number of the machine, the name of the dealer from whom he purchased, and the date of purchase. Failing compliance with the above, no notice will be taken of anything which may arrive, but such articles will lie here at the risk of the sender, and this guarantee shall not be enforceable. We guarantee only new machines which are bought either direct from us or from one of our duly authorised dealers.

This guarantee does not include rims, tyres and saddles, in respect of which the purchaser is referred to the respective Manufacturers.
