

# Raleigh put all their know-how into this moped

Nobody knows more about designing and building fine, dependable cycles than Raleigh. And now Raleigh have put all their knowledge and experience, all their engineering skill and production resources, into this—the Moped with a great British name behind it.

This Raleigh Moped is an honest workaday job, built throughout to go slogging on mile after mile, month after month, with the minimum of attention. Cruising at 25 m.p.h. and covering a good 200 miles to the gallon, it has all the performance you need, at a price you can afford to pay, backed up by a complete, country-wide service and spare parts set-up.
