

Effortless  
travel for less  
than  $\frac{1}{2}$ d. per  
mile!

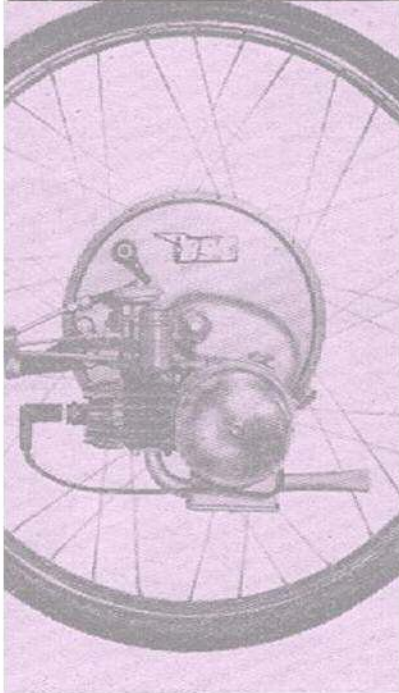

Have you seen the beautiful Raleigh Automatic Moped? Low running cost (more than 160 mpg) is only one of its advantages. It has a sturdy and trouble-free 50 cc. engine. There are no gears to bother with, an automatic clutch does all the work. It is generously equipped and has 'Raleigh' dependability. Add to this an attractive charcoal and pearl grey finish, and a price of only £61.17.2, tax paid. No wonder so many people are turning to the easy-to-park, easy-to-ride Raleigh Automatic for personal transport that beats the traffic jams! See this great machine soon!
