

*This moped carries two people up a 1-in-9 hill **without pedalling!***

Yes, the remarkable Raleigh Supermatic with its sturdy 50 c.c. engine can carry a rider and passenger, each weighing 11 stone, up a 1-in-9 hill without any pedalling being necessary. And it does 35 mph on the flat! This beautifully-finished moped-for-two couldn't be easier to ride, thanks to its automatic clutch and infinitely-variable automatic gearbox. In short, the Supermatic does *all* the work. Colour? Charcoal and pearl grey with bright chrome fittings. Cost? £89.3.6 tax paid. For inexpensive trouble-free travel, for a beat-the-traffic ride to work, for companionable trips in the country, you need a
