WOLBER TYRES

READ WHAT "OPPY" SAYS

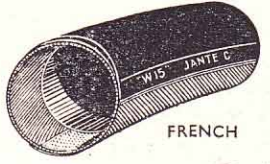

Dear Mr. Fonteyn,
 I thought that you would be interested to know that I am still using the Champion du Monde tyres which I procured from you in England before my return to Australia.

Although the first section of the Collie-Perth ride was on gravel roads with a very rough surface, and was ridden at night, the tyres came through absolutely unscathed. Since then I have used the same pair in a twelve hours' ride.

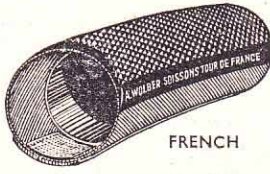

The Wolber Champion du Monde I consider to be the best road racing tyres in the World. I must have covered close to 800 miles now on this pair, in road records in England and Australia, without having a suggestion of trouble.

Yours sincerely,
 Hubert Opperman.
