

Now you're living! ~with Casal

Own a 'Casal' bike and you own a superbly-styled piece of engineering that takes you into the new age of motorcycles.

Expertly designed to the last detail for high-performance with the accent on good looks, the whole 'Casal' range is a product of years of experience in producing world class machines. Tough engine bodies made from reinforced steel-aluminium alloy cylinders with hard-chromed interiors—seamless steel tube frames—telescopic shock absorbers with hydraulic and mechanical systems. Spares? No problems, no waiting. As for looks—well, just take a look for yourself!
