COVENTRY

eagle 97

The exciting new 1997 Coventry Eagle range is the culmination of many challenging self imposed principles - quality, innovation, value for money and above all, to create bikes on which everybody can have the time of their life!

All our cycles are designed using the very latest computer aided design systems before assembly begins employing rigorous high engineering standards. It is this enduring tradition of cycling experience and knowledge, combined with the latest technology that runs through the entire Coventry Eagle range.

Designed to appeal to cyclists of all age groups, from youngsters looking for the coolest, up to the minute stylings, to the understated elegance of our adult hybrids, there really is a bike for everyone in the '97 range.

We hope our bikes generate as much joy for you as we experienced in developing them. Please enjoy choosing your new Coventry Eagle bike.

sustrans

THE NATIONAL CYCLE NETWORK

As all cyclists know, cycling is a healthy, sociable and environmentally responsible way to travel. Commuting, the journey to school, family outings... all can be much more pleasant by cycle.

Sustrans (short for sustainable transport) is a registered charity building dedicated cycle routes which run right into town and city centres. The routes cut right through congestion, noise and pollution, linking homes, schools, shops and offices. They provide safe access to the countryside, protect wildlife and above all, bring people together.

Coventry Eagle Cycles is working with Sustrans to help make Britain a safer, more fun place to cycle. The aim is to create a national cycle network of cycle routes in excess of 2000 miles by the year 2000 to mark the Millennium.

The National Cycle Network will reach into all major regions of mainland Britain. It will provide a safe, enjoyable and healthy means of travel for people of all ages.

Urban routes exist or are in progress in and around:

1. Edinburgh
 2. Glasgow
 3. Co. Durham
 4. West Cumbria
 5. York
 6. Liverpool
 7. Derby
 8. London
 9. Swindon
 10. East Sussex
 11. Bristol
 12. Bath
 13. Plymouth
- and many smaller places.

KEY:

Proposed National Cycle Network: to be composed of traffic-free routes, traffic-calmed minor roads and protected crossings.

measuring for your new bike

To ride your bike comfortably, you should be able to keep your foot flat on the pedal throughout its rotation. Most saddles and handlebars can be adjusted, but it is still important to pick the right frame size.

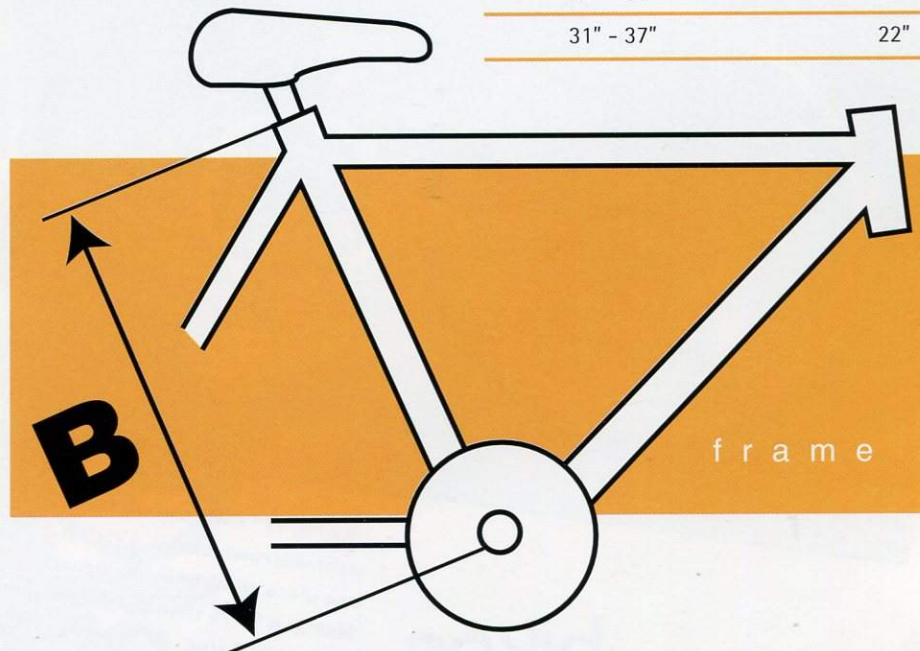

Check your inside leg measurement against the chart to see which frame size is right for you.

i n s i d e l e g

A D U L T S

YOUR INSIDE LEG (A ON DIAGRAM)	THE FRAME SIZE NEEDED (B ON DIAGRAM)
23" - 29"	15"
24" - 30"	16"
26" - 32"	18"
29" - 35"	20"
31" - 37"	22"

GUARANTEE - All Coventry Eagle cycles are guaranteed against defects in workmanship and materials from the original date of purchase. This applies as follows: Frame and standard forks - 10 years, Suspension fork - 1 year, Parts - 1 year. Whilst every effort will be made to supply an identical part in the original colour, if applicable, the Company reserves the right to substitute an alternative. This guarantee does not seek to diminish any consumer statutory rights. Coventry Eagle Cycles policy of continually updating and improving its range means that the specifications and appearances of all bicycles in this catalogue are subject to alterations any time. For this reason, this brochure and these specifications are only a general guide. If necessary, please check details with Coventry Eagle Cycles Limited or your local dealer's sales staff.

Coventry Eagle Cycles Limited,
Leigh Commerce Park, Green Fold Way, Leigh, Lancashire, England. WN7 3XH.
