... as little as £5 5s., and four tandems are included in the range.

## COVENTRY EAGLE CYCLES 7

This well-known firm is again entering the field with a choice display of machines designed to cater for the requirements of the majority, and it is believed that the distinctive bicycles that have resulted from this policy will be greeted with even more interest than usual. Smart name-plates, instead of transfers, are being fitted, and Tourists' models are neatly lined. Monitor brakes are a feature on many machines.
