

**Super mopeds  
for  
work and  
leisure**

### Top Marks for appearance

KTM mopeds are beautifully styled and are finished in attractive, modern colours. The hard-wearing paintwork combats the ravages of time and weather. The ideal transport for work, everyday use and

### Top Marks for engineering

KTM machines are well designed and well built - every model characterised by the same high quality of construction — from mopeds to motocross machines.

### Top Marks for reliability and comfort

Strong frames and first class suspension, front and rear, ensure a comfortable ride on most road surfaces. All KTM mopeds are powered by the proven Sachs engine, known world-wide for its reliability - economical and quiet, too!

### Top Marks for safety

Specially developed drum brakes, plus wide tyres, ensure stability and good road holding. The lighting system makes sure you can see and be seen.

### Top Marks for accessories

Anti-thief lock, luggage carrier, lockable tool-box, petrol tank with reserve, are all inclusive.

Motor: Sachs  
Type: 504/1A  
Cylinder capacity: 47 cc  
Cooling: air flow

Automatic clutch

## KTM GRAND PRIX 50

The latest addition to the KTM moped range - the new sports Grand Prix 50. Modern styling and colours. Fastback seat and slimline petrol tank. Safety lock. Designed and built with the young in mind.

Motor: Sachs  
Type: 50/4 DFX  
4-speed foot control  
Strong cylinder  
Air flow cooling  
Carburettor: Bing 17 mm  
Cylinder capacity 47 cc  
Lockable tool case

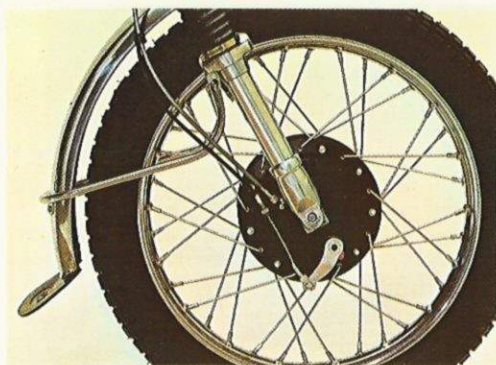

## KTM Automatic

The modern design of the KTM Automatic is due to the specially developed sheet steel frame with its built-in petrol tank. The Automatic is fitted with a new type of fully automatic Sachs motor, with a cylinder capacity of 47 cc. The petrol tank contains 3.5 litres. And, of course, the Automatic has a reserve capacity too. The KTM Automatic is available in various colours.

**KTM** Comet Cross

The sporting moped. Large tank, containing 10 litres. Extra strong front telescopic forks with a 140 mm spring resistance. Broad cylinder. Hydraulic suspension. Full drum brake hubs with a diameter of 130 mm, give considerable braking potential. Stainless steel mud-guards and sporting tyres.

Motor: Sachs  
Type: 50/4 DFX  
4-speed foot control  
Broad cylinder  
Air flow cooling  
Carburettor: Bing 17 mm  
Cylinder capacity: 49.9 cc
