TERMS OF BUSINESS—GUARANTEE

GENERAL : 1.—The following are the conditions which apply to all orders given to and accepted by Mini-Motors Ltd. or their Dealers for Mini-Motors. The Company does not hold itself responsible for any condition other than hereafter mentioned.

PRICES : 2.—Quoted prices are based on the Company's current lists and are subject to alteration without notice.

IMPROVEMENTS AND ALTERATIONS : 3.—The Company reserves the right to carry out alterations and improvements in design or methods of manufacture from time to time without notification and without incurring any obligation to install them on Mini-Motors previously sold. Any such alterations shall not affect the validity of any customer's order.

GUARANTEE (Home Sales) : 4.—The following guarantee is given and no other guarantee or warranty whatsoever is given or is to be implied. Every Mini-Motor is supplied and guaranteed to the original registered user against defective workman-

ship and/or material, exclusive of accessories not of the Company's manufacture, for a period of six calendar months from date of sale to user.

The Company is prepared to supply free of charge at Works the necessary replacements for any part which may be proved faulty as above. The guarantee is limited to the supply of new parts or to the repair of defective parts. It does not imply the assumption of contingent liability nor shall it form the basis of a claim for labour or other expenditure arising nor shall the Company be liable for any direct or consequential damage in any way arising.

This guarantee does not apply to defects arising from or caused by racing, wear and tear, dirt, misuse, neglect, nor to defects in any unit on which the identification numbers or marks have been altered or removed.

CLAIMS : 5.—Any claims under the above guarantee are to be submitted to the dealer from whom the unit was purchased.

IMPORTANT : It must be impressed on the dealer that the claim is under this guarantee.

the EASY way

MOTORISE YOUR BIKE.. WITH

FIT a Mini-Motor to your bicycle or tandem and take the hard work out of cycling. This sturdy 1.3 h.p. unit is easy to fit, easy to operate, easy to maintain. It gives motorised speeds up to 25 m.p.h. and does up to 240 miles to the gallon. You can learn to drive in five minutes.

After you've seen the Mini-Motor you'll be convinced that here is the power unit which the cycling world has been waiting for. It's for you — for everyone with a bike.

MINI-MOTOR — IT'S EASY!

The Mini-Motor has no gears to wear out. There is only one revolving unit — a crankshaft assembly mounted on ball and roller bearings. The 2-stroke engine runs on a mixture of petrol and oil. A drive lever, for engaging and disengaging the engine, and a throttle lever (which also controls the decompressor) are fitted to the handlebars, and are simplicity itself to operate.

MINI-MOTOR FITS ANY BIKE!

Your dealer will quickly fit a Mini-Motor to your bicycle without any structural reinforcement or alteration. This robust little engine, the first in the field, is at home under all weather conditions. Over 60,000 Mini-Motors are in constant use at home and overseas. Office and factory workers, shoppers and district nurses are finding the Mini-Motor indispensable. It pays for itself again and again. It will pay you to Mini-Motor!
