

# THE CYCLE AND MOTOR CYCLE TRADER

FOR THE  
TRADE ONLY

Vol. XLIV.

November 16, 1906

the country. Other grades of  
 ver the entire range of requirements, from the peasant to the  
 peer, the juveniles being specially catered for.

DAVID MOSELEY & SONS, LTD., ARDWICK, MANCHES-  
 TER. (89)

Moseley Best tyre and the celebrated Ardwick quality, also the  
 very light racing tyres, 26 x 1 $\frac{1}{4}$ in., will attract a good deal of  
 attention at this stand.

being thus agitated throughout the whole time.  
 can be easily removed.

DAVID MOSELEY & SONS, LTD., ARDWICK, MANCHES-  
 TER. (89)

The Moseley best quality and Ardwick tyres are practically the  
 same as last year, with a slight reduction in price for the trader,  
 though the list prices are the same as in 1906. Both qualities are  
 made in either wired on or beaded edge pattern, the choice of two  
 pattern treads on each. These are of the usual herring-bone and  
 file and bead. An open side tyre is made for road-racing of 1 $\frac{1}{4}$ in.  
 section, and is of specially light, flexible fabric. Motor cycle tyres  
 are made of 2in., 2 $\frac{1}{4}$ in., and 2 $\frac{1}{2}$ in., in both wired and beaded types.  
 All are made extra heavy, of best quality only. A full range of  
 rubber side lines is also shown. Pram tyres, cricket bat handle  
 covers, football bladders, motor horn bulbs, etc., of interest to  
 traders.
