POWER AND PEDAL

suggestion we fitted a front-wheel- The beloved engine — one means of
"Moore" still not a engine

cyclist wear himself out — and for us
to wear our engine out for nothing.

And now the fun started.

To be continued next month

*JEALOUS? — This lovely tandem with a built-in motor is the
"Ranger" from Holland. The detail is as that of the autocycle
described in our October 1954 issue. It has a 49 c.c. motor,
clutch, belt primary, with final independent chain drive.*
