LINEN FINISH SUMMER JACKETS Half Belt, Gathered, ... 5/9
Gent's and Ladies', Worthy Brand ...

*Here's where
Lightweight SPECIALISATION Scores.*

What other Firm could have produced
the equal of this machine at the
price?

And would the Cyclists' Touring Club
have permitted the prestige of its
initials to be conferred upon a machine
unworthy of the honour?

Get a Sun "C.T.C." and get in the
expert class.

A unique machine built from Sun's own
special racing fittings with 63 degree semi-
upright frame, Russ or D to Round Forks,
chromium plated. Two brakes and free-
wheel optional. Weight to lightest
specification, 26½ lbs.

Price **£6-19-6** (or easy terms).

STUDY GEOMETRY

FOR YOUR LATE SUMMER TOUR

Geometry—or the Science of Angles—can make or mar your pleasure. No need, however, for you to study it—“Sun” has done it for you in the scientific “angling” of its famous “C. T. C. MODEL”—a fast touring mount in which correct riding - stance angles have been brought to a fine art—thus giving vast relief to tired wrists.

Sun “C.T.C. Model,” built from “Sun” special racing fittings, with 63-degree semi-upright frame and with Russ or D to Round Forks, chromium plated. Two brakes and freewheel optional. Weight, to lightest specification, 26½ lbs.

Price **£6-19-6**
