## DISCOVER THE ROAD TO FREEDOM. THE INDISPENSABLE **ELECTROBIKES**

As reviewed in the  
'Evening Standard' 23rd  
November 1992.

"Cycling should be  
sweaty work - but with  
this bike all you do is  
get on, twist the han-  
dlebar grip and off you  
go.

...the Electrobike glides  
along effortlessly...it  
does everything the  
maker says it should. At  
a sedate 10 miles an  
hour, it purred  
along."

- ★ As easy to ride as an ordinary bike.
- ★ Costs only pence to run.★ Three speed gear system makes molehills out of "mountains"! ★ Models travel up to 25 miles at constant 15m.p.h. (when driven by motor only). Will travel even further when pedal assisted.
- ★ Hundreds sold all over U.K..★ Environmentally friendly - noiseless.★ Requires no licence, tax, insurance or crash helmet.★ Electric horn, lights & indicators.★ Direct from the factory prices & much less expensive than 3/4 wheel scooters.★ Easy to recharge and complete with one year guarantee.★ Also electric conversion kits available - will fit any bike or trike. ★ All models handbuilt in England.

### **ELECTROBIKES-SIMPLY GET ON.TWIST. & GO!**
